WHOLESALE SINKING IS NEW FEAT OF DIVERS

Rush of News of Ship Destruction Reaches Europe: Destroyers Rescue the Victims

AMERICAN ADMIRAL DIRECTS NAVY WORK

Sims Raises Flag As Head of Work on the Irish Coast; Details Arrive of Diver Attacks

BULLETIN.
LONDON, June 20.—Twenty-seven British ships of more than 1600 tons have been sunk, according to the weekly British summary given out today. Five British vessels and 1600 tons also were sent to the bottom. No fishing vessels were destroyed.

BY INTERNATIONAL NEWS SERVICE
LEASING WIRE TO TRIBUNE.
LONDON, June 20.—It was reported here today that the list of submarine victims to be made public tonight will record the largest number of torpedoed vessels since the German submarine campaign began.

By J. W. Pedler,
United Press Staff Correspondent.
WITH THE AMERICAN DESTROYER FLOTILLA IN BRITISH WATERS. June 20.—After a record-breaking dash at night, in response to wireless distress calls, two American destroyers arrived at their base in an English port today with eight survivors of the two torpedoed merchant ships.

The rescues were made at a point at sea farther from land than any previous ones have yet been reported. The total run on this errand of mercy was several hundred miles. Thirty-one survivors from one ship were picked up in boats, and a little beyond forty-nine from the other merchantman.

SIMS COMMANDS.
Vice-Admiral Sims, the American fleet commander, who is now in charge of all allied naval operations in this section, personally talked with a number of the survivors on their arrival in port. The flag of the American admiral now floats from a flagstaff on a promontory on the coast, where it is visible for miles at sea.

WASHINGTON, June 20.—A brief message from London brought the Navy Department its first news of the appointment of Vice-Admiral Sims to command the allied naval forces in Irish waters during the absence of the commander of that district. The department had no other information as to the new responsibilities placed upon the American officer.

The Washington Government has given Admiral Sims wide powers to enable him to meet any situation that may arise. Because of the distance from Washington to the scene of operations, no effort was made to hamper the officer with requirements that he report for orders. The Admiral has full authority to act on his own initiative.

SUBMARINE DEPARTMENT.
PARIS, June 20.—A special submarine department was created at the ministry of marine by a decree signed by President Poincaré last night. Rear-Admiral M. B. G. J. Mervielux, of Vignac, has been placed at its head.

BOSTON, June 20.—The sinking of the British steamer *Elea*, presumably by a German submarine, was reported in a cable message received today by the Leyland line from Captain Pierce, her commander. The vessel left Boston on June 8 for Manchester, England, with a general cargo. The message made no reference to the crew.

RAY STATE SUNK.
BOSTON, June 20.—The Bay State, a British freighter, of the Warren line, has been sent to the bottom by a German submarine off the coast of Ireland, according to despatches received here. The Bay State, valued at \$1,250,000, carried a cargo of supplies to the British Government valued at \$2,000,000.

The despatch contained no information as to the fate of Captain Alexander Fenton and forty-five members of the crew. The Bay State, built at Liverpool, was a comparatively new vessel, having been built in Sunderland in 1915. The vessel was 450 feet long and 43 feet in the beam.

The Dutch steamer *Eemdjik*, which left Boston, May 13, for Rotterdam with grain for the Holland government, has been sunk, according to advices received by agents here today. First reports gave no details as to the fate of the crew.

The sinking of the twelve allied steamers, including three which sailed from one American port, since May 13, was reported today in a rush of news concerning German submarine activity.

70,000 ARMY RECRUITS ARE ASKED IN WEEK

BY UNITED PRESS.
LEASING WIRE TO TRIBUNE.
WASHINGTON, June 20.—The week between June 23 and 30 was this afternoon designated by President Wilson as "recruiting week," in which the President asks that 70,000 men volunteer their services for the regular army. The proclamation follows:

"I hereby designate the period of June 23 to June 30 next as recruiting week for the regular army and call upon unmarried men between the ages of 18 and 40 years who have no dependents and who are not engaged in pursuits vitally necessary for the prosecution of the war, to present themselves for enlistment during the week therein designated to the number of 70,000."
"WOODROW WILSON."

U. S. URGED TO CONTROL COAL MINES

WASHINGTON, June 20.—Secretary of the Navy Daniels today threw down the gauge of battle to the coal producers of the United States, in a conference with the federal trade commission to discuss the cost of production of coal, copper, cement, iron ore and oil. He then declared:

"I am going to know what these things cost and give the producers liberal profits, but beyond that I am not going to pay."

He said that it was true that the navy has bought copper at 17 cents a pound when the market price was 20 cents, but the market supply is not exhausted and more must be obtained at a reasonable price.

WASHINGTON, June 20.—Government pools of coal production and distribution and of rail and water transportation were recommended to Congress today by the Federal Trade Commission as the only means of avoiding a disastrous coal shortage next winter.

"The commission believes," says the report, submitted after many months of investigation ordered by Congress, "that the coal industry is paralyzing industries of the country and that the coal industry itself is paralyzed by the failure of transportation. There are enough coal cars in the country, but not enough are delivered to the mines and these cars are not moved to the point of consumption with the greatest expedition, nor are they promptly discharged."

In view of these conditions, the commission recommends:

First.—That the production and distribution of coal and coke be conducted through a pool in the hands of a government agency, that the products of various grades of fuel be paid their fuel cost of production plus a uniform profit per ton with due allowance for quality of production and efficiency of service.

Second.—That the transportation agencies of the United States, both rail and water, be similarly pooled and operated on government account and under the direction of the President, and that all such means of transportation be operated as a unit, the owning corporations being paid a just and fair compensation which would cover profit, up-keep and betterments.

WINTER COAL FAMINE.
These recommendations are approved by Commissioners Davies, Colver and Fort. Chairman Harris dissents on the plan for transportation pool, except as a last resort, and suggests instead "that during the winter the President be authorized to order rail and water transportation agencies to give preference to shipment of coal, coke and other commodities in the order of their importance to the public welfare."

An urgent necessity exists for immediate legislation to correct conditions, says the report, because the usual spring and summer accumulation of coal stocks at points distant from producing districts "is not now being made, and the country is being faced with a most serious and irremediable situation."

Present production of bituminous, or soft coal, is 40 per cent under the possible maximum. Consequently the extra large production of anthracite coal this spring, one-fourth greater than usual, has been diverted to industrial markets ordinarily filled by bituminous coal and coke.

FOR UNIFORM PRICES.
Anthracite mines have been given ample car supply, the commission observes, by reason of the close corporate relation between rail transportation and anthracite production. Bituminous coal and coke.

NAVY LADS FACE VICE AT NEWPORT

Secretary Daniels Asks That the Rhode Island Authorities Curb Resorts for Recruits

Denial Is Followed by a List of Places for Gambling, Liquor and Harpies; to Protect Boys

BY ASSOCIATED PRESS
LEASING WIRE TO TRIBUNE

WASHINGTON, June 20.—Charges that naval recruits at the Newport, R. I., training station are exposed to open gambling houses, immoral resorts and illegal sales of liquor were made by Secretary Daniels today in announcing that he had appealed to Governor Beekman.

In response to a preliminary complaint, the mayor of Newport made a general denial and declared there was no unusual degree of immorality in the fashionable city.

The Navy Department, with the assistance of agents of the Department of Justice, thereupon made a separate investigation and as a result Secretary Daniels renewed his complaint to the governor.

DANIELS SENDS LIST.

Secretary Daniels said today in announcing his appeal to the governor of Rhode Island a list in detail of some of the most notorious houses of prostitution and open gambling houses in Newport, also calling his attention to the extent and methods of illegal sale of liquor to sailors and naval reserve recruits and informing him that the department is ready to furnish him with further specific evidence.

"I have just sent to the governor of Rhode Island a list in detail of some of the most notorious houses of prostitution and open gambling houses in Newport, also calling his attention to the extent and methods of illegal sale of liquor to sailors and naval reserve recruits and informing him that the department is ready to furnish him with further specific evidence."

"At Newport and other places are gathered several thousand of the finest youth of the land, who have offered their lives for the service of their country at a time when this sacrifice is no figure of speech. Most of them have come from carefully guarded homes and their parents have given them the duty of seeing that the laws of their State and of the United States are safely executed. There lies upon us morally to a degree far out-reaching any technical responsibility the duty of leaving nothing undone to protect these young men from that contamination of their bodies which will not only impair their military efficiency, but blast their lives for the future and turn their homes a source of danger to their families and to the community at large."

"Those dangers are bad enough in ordinary times; in time of war when great bodies of men are necessarily gathered together away from the restraints of home and under the stress of emotion whose reactions inevitably tend to dislodge the standards of normal life, they are multiplied manifold and the temptations of the underworld flock to make profit out of the opportunity. If we fail in vigilance under these conditions, the mothers and fathers of these lads and the country generally will rightly hold us responsible."

WILL PROTECT LADS.

"I feel confident that the governor of Rhode Island and the local officers responsible to him and the civil authorities at other places where the navy has gathered large numbers of men enlisted for service will appreciate the vital importance of this matter, and will take such steps as will make unnecessary any further steps by the government of the United States."

"I am determined that so far as this department is concerned, nothing shall be left undone that is possible to discharge the duty of protecting these lads who have been committed to our care."

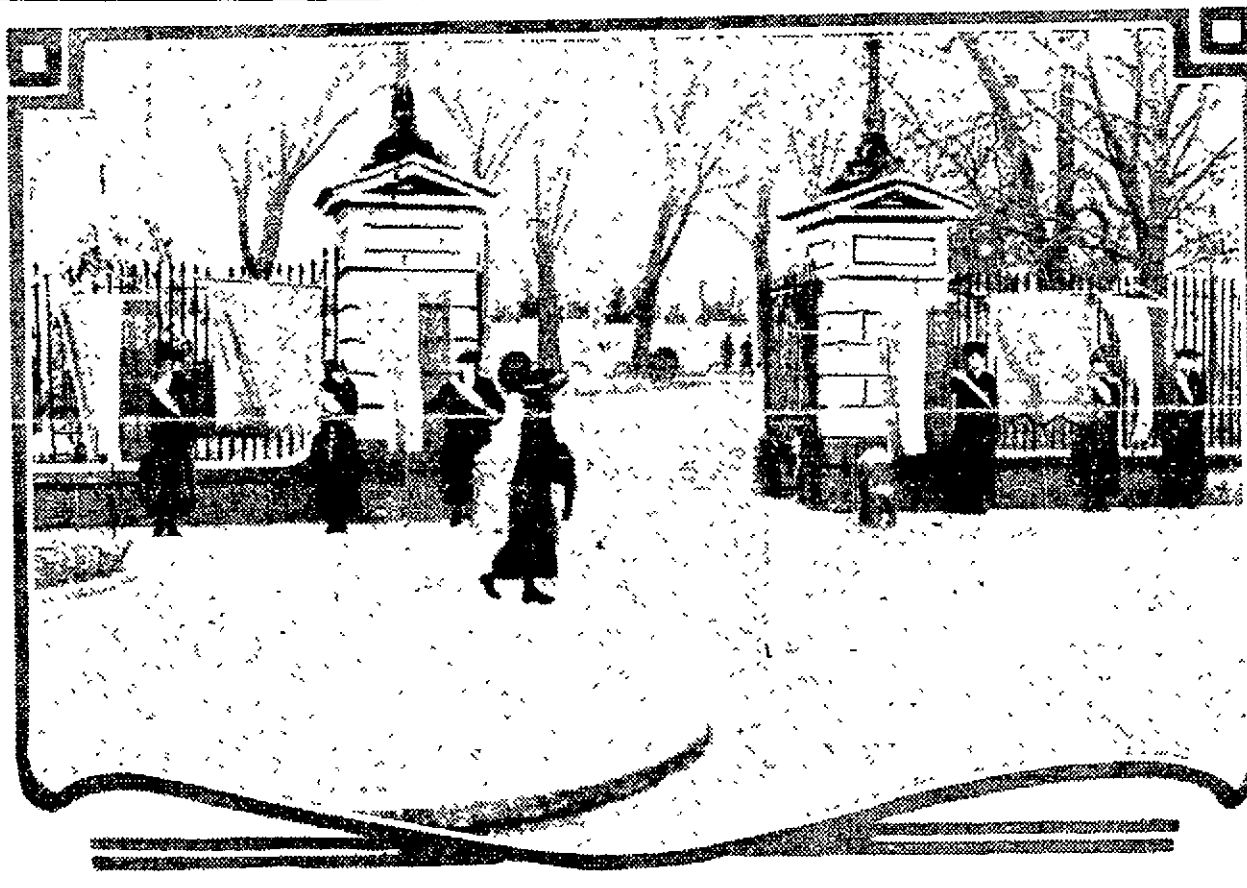

DEFENSE BOARD TO BE CHANGED BY PRESIDENT

SAN FRANCISCO, June 20.—The National Council of Defense is not operating to the satisfaction of President Wilson and will be reorganized, according to information received here today by the Chamber of Commerce from H. E. Bennett, its representative in Washington. A telegram states that the advisory commission has been assuming too great powers, which has stirred the President to threaten a shake-up. The reorganization plan contemplates the bringing of sub-committees more prominently into the foreground and the relegation of the advisory commission to a place more in keeping with its name. Conflict of authority is said to be delaying the closing of contracts and is causing much complaint by businessmen.

STRUCK BY HEAT

LOS ANGELES, June 20.—Henry E. Huntington is in bed at his San Marino home by order of his family physician, following an unexpected attack of illness. The doctor said he was suffering as a result of four days of high temperatures in Southern California. Overwork incident to the recent merger of the Southern California Edison Company and the Pacific Light and Power Company also is considered to have had a share in bringing on Huntington's condition.

Mobs Attack Suffragettes; Tear Banners From "Sentinels"

Suffragist pickets at the main entrance to the White House, where a riot took place today when the "sentinels" appeared with signs announcing that "President Wilson and Envoy Root Are Deceiving Russia."

Jail Breaker Located; Is With Villa

BY UNITED PRESS.
LEASING WIRE TO TRIBUNE

Robert Emmett Graham, notorious burglar, who was the companion of Robert Bradley, murderer of Pádraigín J. A. Williams in April, 1912, in the most daring and skillful escape from the Alameda county jail in its history, has been located. He is an officer with Villas bandit army in Mexico, according to information received today by Sheriff Frank Barnett from United States secret service operatives in Mexico who are trying to lure him across the border so that he can be arrested and brought to trial.

"The Graham-Bradley escape recalls the escape of the 'Big Boy' from the jail for burglary staring him in the face, occupied cells in what is known as 'murderer's row'."

Early on the morning of September 2, 1913, Ed McLaughlin, engineer of the jail, noticed a long rope of plated strips of blanket dangling from a window on the upper story of the jail. He gave the alarm and it was soon discovered that two of the daring criminals who had occupied separate cells, had escaped.

Three steel bars a half inch thick and three inches wide had been sawed from the exercise cage on which the jail opened, forming an aperture 12 by 9 inches. Through this Bradley and Graham, both weighing approximately 150 pounds, squeezed themselves, gaining entrance to the room of which their cage was the center. After this they led to saw through a heavy wire mesh that formed the inside of the window opening on to the east side of the jail and three inch iron bars that were supposed to be protection from the outside. The blanket was thrown from this and it was an easy matter for the men to reach the ground and disappear in the darkness.

SAWS THROUGH STEEL

The material through which the men sawed their way to liberty is chilled steel and guaranteed by the contractors to be too proof.

Bradley was captured two months after the jail break at a nobo camp near El Centro, where, just the night before his arrest, he had committed several holdups. At the time a \$30,000 estate left him by a relative in the east was awaiting his claim. He was brought back to this county and soon afterwards was taken to Folsom to serve a life term for the murder of an Oakland police officer.

Graham was on probation for burglary at the time of the offense for which he was sentenced to the fourteen-year term. It was soon after he was placed on probation that he was detected by Corporal E. W. Brock robbing a tailor shop. He fled the officer with a bolt of cloth and the policeman shot him from the forehead. At the time of his escape he was still badly limping from his injuries and his bandages had been removed from his hand only a few days before the sensational escape from the jail.

Sheriff Frank Barnett, despite the obstacles in his way, has never given up the hunt for Graham. He has flooded the country with descriptions of Graham, supplying copies to United States secret service operatives in Mexico and South American republics.

POSITIVE INFORMATION

The information that Graham had positively been identified came this morning. The authorities, however, are not at liberty to give the source of their information, or any other particulars other than that Graham is an officer in the outlaw band commanded by Francisco Villa. Efforts are now being made to lure him across the border, the authorities having been informed by the federal authorities that due to conditions in Mexico it is impossible at the present time to extradite Graham.

"I am glad this long hunt is over," said Sheriff Frank Barnett today, "and while Graham is still at large he is constantly shadowed by secret agents of the government and will be taken to custody at the first opportunity. He is constantly followed by one of the government's most persistent secret service men, whose reputation leads me to believe that he will never lose sight of his prey."

Insult to Wilson Rouses Ire of Washingtonians

BY UNITED PRESS.
LEASING WIRE TO TRIBUNE

Incensed at savage protests who demanded unapologetic banners before the White House gates as the Russian commission entered to greet President Wilson, an angry mob of 300 men and women, mostly government clerks out on lunch hour, charged the women and tore the banners to shreds.

"President Wilson and Envoy Root are deceiving Russia" was the accusation printed in black type on a banner 10 feet high displayed at the two official entrances to the White House.

"They say 'we are a democracy. Help us win a world war so that democracies may survive.' We, the women of America, tell you that America is not a democracy," continued the legend on the banner.

"Twenty million women are denied the right to vote. President Wilson is the chief opponent of their national enfranchisement."

"Help us make this nation really free. Tell our government that it must liberate its people before it can claim free Russia as an ally."

Miss Lucy Burns, New York, and Mrs. Lawrence Lewis, Philadelphia, carried the banners.

CROWDS GATHER

Shortly after the women went on duty at 10 o'clock this morning crowds began to gather before them, jeering. Augmented by government clerks who swarmed out of nearby buildings at lunch, the crowds' temper began to rise.

The police guards at the White House gates with whom the suffragists' pickets have been on very friendly terms since they started their "guard mount" were grimly silent and made no move to check the crowd when it advanced suddenly toward the pickets.

Several men then jerked down the banners, tore them to shreds and trampled the remnants under foot. Government and office clerks for blocks around rushed to the scene. Police from the White House grabbed several ringleaders in the crowd, but the sergeant in charge ordered their release. He himself ripped down the last shreds of the banners. The women carrying the banners were unhurt.

The police took the frame on which the legend was mounted into the White House grounds.

TO PROBE INCIDENT

The incident was called to the attention of the Department of Justice shortly after it occurred and an investigation was started at once to determine whether there was anything treasonable in the first line of the women's placard, which accused President Wilson and Root of deceiving Russia.

State Department authorities were in doubt whether this constituted meddling in delicate negotiations involving this government.

MRS. PANKHURST IN PETROGRAD; WILL TALK WAR

BY ASSOCIATED PRESS
LEASING WIRE TO TRIBUNE

PETROGRAD (via London), June 20.—Mrs. Emmeline Pankhurst, the British suffragist leader, arrived unexpectedly in Petrograd yesterday. Mrs. Pankhurst conferred with Elhu Root and Charles Edward Russell at the Winter Palace regarding ways to assist Russia in the struggle with the common foe.

Mrs. Pankhurst said that she had come to Russia to explain to the men and women of the new republic the attitude of the British democracy toward the war.

British Take Back Posts In Attacks

BY ASSOCIATED PRESS
LEASING WIRE TO TRIBUNE

LONDON, June 20.—British troops on the Arras front drove forward last night, recapturing from the Germans the advanced posts east of Monchy, which had been lost on Monday, the war office reported today.

These posts are in the sector of Infantry Hill, which the Germans tried in vain to take during their furious assaults last Sunday night and Monday morning.

PARIS, June 20.—German artillery is violently bombarding French positions on the Aisne river and in Champagne, the war office announced today. The cannonade was particularly severe in the sectors of Lauffaux mill, on the north bank of the Aisne river, and Mont Carnillet, in Champagne.

The Germans attempted an infantry attack, but it broke down under the French fire.

ROME (via London), June 20.—The Italians resumed the offensive yesterday. The war office announced the capture of Austrian positions on Monte Ortigara and 936 prisoners.

No Cabinet In Austria; Crisis Feared

BY UNITED PRESS
LEASING WIRE TO TRIBUNE

LONDON, June 20.—The youthful Emperor of Austria-Hungary was confronted today with his most difficult task as a ruler since assuming the throne. The entire Austrian cabinet, headed by Count Clam-Martinov, resigned late yesterday. Despatches received from Vienna, via Amsterdam, today emphasized the difficulties which the government must overcome in order to obtain a cabinet which will receive sufficient support from the various factions in the empire to survive.

Formal announcement by the Poles that they would refuse to deal with Clam-Martinov's ministry was directly responsible for the resignations of those advisors. The Slavic parties have been anti-government, and with defection of the Poles the anti-forces held a majority in the Reichsrath.

Judging from the cautious comment of the German press on the ministry's fall, the Germans regard the situation as grave.

VIENNA, June 20.—Reports were current in semi-official circles today that Count Tarnowsky, former Austro-Hungarian ambassador to the United States, will be the first premier to form a government in Poland.

BELGIAN LABOR BUREAU STARTED BY GERMAN ARMY

COPENHAGEN, via London, June 20.—A German industrial bureau has been established in Brussels to recruit Belgian labor for German war industries and Belgium women for farm work. The official announcement mentions the "voluntary" nature of the recruiting, but does not specify the conditions.

The Belgian provinces have refused to meet the increased war contributions of 60 million marks monthly which the Germans have now imposed upon them. In the same fashion as formerly, the Germans have forced contributions from the banks. The banks are given the security of two-year bonds for which the provinces are responsible, the amount covering six months' contributions.

GORE OPENS ATTACK ON FOOD BILL IN SENATE

Measure Strikes at Farmer, Senator Declares; It Will Cost the Producers Millions

FAMINE NEXT YEAR IS PREDICTED AS RESULT

Hunger Riots in Big Cities Imminent if Relief Is Not Given; Drastic Move Planned

WASHINGTON, June 20.—Food riots in the country are imminent unless there is immediate relief from high prices, in the opinion of members of the Federal Trade Commission. Accordingly, in conference with department of agriculture officials this afternoon, the commission laid plans for the most comprehensive food price investigation so far undertaken by the government.

Commissioner Davies will shortly go to Chicago with a corps of federal experts to begin the investigation in an inquiry into the meat packing industry.

BY ASSOCIATED PRESS

WASHINGTON, June 20.—In a vigorous attack upon the administration food control bill in the Senate today, Senator Gore, Democrat, chairman of the agricultural committee, declared it worse than the farmer will cause losses to producers this year of \$250,000,000 in wheat and \$500,000,000 in corn, and result in famine next year through reduced production.

Senator Gore declared the bill short-sighted policy and it would result in driving down farmers' prices. "It was drawn by some attorney down at the department of agriculture," he shouted, "but one would think it is in the handwriting of the Devil and that it would be sacrilege to change it."

Senator Gore declared the bill was the "sweepings" of all the British and Canadian food acts of parliament and orders in council.

"They are all strung together in this bill like a lot of beads," he declared. "If Congress loses its self-respect in passing this bill unamended, everybody else will lose their respect for Congress."

"I will not say that the intention of this whole movement is to force down the price of products in the hands of the farmers, but that is the inevitable result," he asserted.

"I will not say that the intention of this whole movement is to force down the price of products in the hands of the farmers, but that is the inevitable result," he asserted.

SPECULATORS HIGHWAYMEN.

Senator Kenyon, Republican, then spoke in defense of the bill, attacking food speculators as highwaymen.

"One, however, should apologize for using the term 'highwaymen' in connection with them," he said. "The highwayman or the speculator is a Christian gentleman compared to them. It takes some courage to be a highwayman, but no courage to be a food speculator."

"These gentlemen at the present time are the allies of the Kaiser. They are wakening the American nation in its contest. The men who fight must be fed. The mothers of the nation must be fed. The babies of the nation must be fed. The men who work to make the things to fight must be fed."

"We have heard something about this bill giving the right to the food controller to tell mothers how much food they shall give their babies. It does not do so. But there is one question just as important as the question of the amount of food a mother shall give a baby, and that is whether the baby shall have any food at all, or whether the food that should go to feed the babies of the poor shall feed the little dogs of the rich."

EXPORT CONTROL BOARD.

BY INTERNATIONAL NEWS SERVICE
LEASING WIRE TO TRIBUNE

WASHINGTON, June 20.—To meet the situation created by the international delay in passing food legislation the administration demands, President Wilson will appoint a board of export control, to have drastic authority over American exports—particularly exports of food.

The executive order and proclamation to create such a board probably will be forthcoming within the next twenty-four hours. The purpose of the new board will be to formulate regulations for and give advice to the licensing bureau authorized in the recently enacted export license bill.

The licensing bill is designed to pre-

SAN PABLO DAM PLANS PROTESTED

SAN FRANCISCO, June 20.—Recommending that the East Bay Water Company abandon its plans for the construction of the San Pablo dam, at a total cost of \$4,000,000 and instead purchase its supply from the Sizing Valley Water Company, Attorney J. D. M. Green today filed a petition in the State Railroad Commission. His ultimate idea was the acquiring of water from the Hetch Hetchy supply, which is being planned for San Francisco, and the immediate saving of \$1,000,000 of capital expenditure.

The east bay cities are battling before the commission for lower rates and improved service and the final arguments are in progress. Attorney Green, who is in charge of the case, said that the commission's permission, has already extended \$200,000 on the San Pablo reservoir, which is to cost a total of \$4,000,000, including water shed land. He recommended that these properties should be abandoned and that for the present an adequate water supply could be obtained from the Calaveras reservoir of the Sizing Valley Water Company. He declared that in 30 years the San Pablo reservoir would be practically worthless.

Green further contended that the company should be allowed nothing for reimbursement on the water shed land, that it was a monopoly and not in competition. He argued further that the really holdings of the corporation should be valued at the purchase price and not at the market value today.

The hearing will be concluded tonight. This afternoon arguments were heard from Attorney W. E. Creek of Oakland, who is counsel for the East Bay Water Company.

U. S. TO CONTROL COAL INDUSTRIES

(Continued From Page 1)

tumorous mines, however, are compelled by the car shortage to operate only part of the time and many miners are going into other work.

Contributing factors in the disorganization of coal transportation are the high barge rates from New York to Newport News and to Boston and the practice of lake ships to make trips to the Northwest in water ballast rather than in carry coal.

Discussing the proposed remedy, the commission says:

"If the producer at each mine were paid his full cost of production with allowance for depletion, maintenance, up-keep and usual items and to this were added a fixed and uniform net profit per ton with due regard to quality, the coal thus produced at widely varying costs, if pooled could be sold through the government at an average and uniform price, quality considered, which would be entirely satisfactory to the consuming public and a price much lower than could be fixed if an effort were made to fix a uniform price to the producer. It would secure steady employment, fair compensation to labor and capital, equitable distribution and stable prices could be secured."

"The railroads of the country, if operated as a unit and on government account, could be used to transport coal and other products by the most direct route to their point of destination, and the efficiency of the roads themselves, existing rolling stock and motive power would be vastly increased."

"All receipts from all rail and water transportation agencies being pooled at the expense of operation being paid from the common fund, each individual company should be paid a just compensation which might be measured by the average annual net profit and expenditure, seat maintenance and betterments for the five-year period prior to the war."

"The operation both of the mines and of the transportation agencies could be carried on by the present employees and officials and after the war they could be returned unimpaired to private operation. The rolling stock of railroads, operated as a unit, could be mobilized so as to care for the shifting seasonal demands."

Attention is called to the fact that Great Britain, France, Russia, Italy and Germany have found it necessary during the war to take over control of their coal industries in various degrees.

The commission will continue its investigation.

WHAT'S A NAME?

Pat Kitch is looking for a name for his new bakery, which he is incorporating. The bakery is to be called the "Patricio," "Kitch's Kicker," and many others have been suggested. "The Bird Case" was suggested by one bright man with the suggestion that it mean "Chicken Coop" to the old patrons of the bakery. Pat turned the suggestion down with the statement that he has spent \$2500 to make the mezzanine floor a credit to the city and intended to make it exclusive to a degree that would satisfy even Mrs. Granger. The entire upper story now has a maple floor, the partition which formed the old banquet room has been taken out giving increased space for dancing. Several new instruments in the orchestra and the eccentric dancing of Miss Lewis add to the enjoyment of patrons.

KILLED BY SHOCK

BENICIA, June 19.—Fred A. Moffitt, 26, was electrocuted in a cannery here last night when he took hold of the wires of a high tension circuit. Ten physicians worked over him for nearly 24 hours. He left a wife and two children. He recently had enlisted in the naval reserve and expected to report for duty shortly. He was considered an expert electrician.

Miss Edeau Admits She Didn't See Bomb Plot Defendants

Oakland Woman Says Statement Was Signed Before She Laid Eyes on the Accused

TRIBE BUREAU

SAN FRANCISCO, June 20.—The admission on the part of Miss Sadie Edeau, of 4106 Vale street, Oakland, that she had signed a statement for the district attorney in which she stated that Warren K. Billings, Thomas Mooney, Mrs. Rena Mooney and Israel Weinberg, bomb plot defendants, were seen by her at 721 Market street, before she had ever laid eyes upon them, has been called upon to identify them, caused a sensation in Mrs. Mooney's trial this morning.

The admissions of Miss Edeau were forced from her on cross-examination by Attorney Edwin McKenzie after she had testified to the presence of the defendants at 721 Market street on the day of the preparation of the preparedness parade. When the prosecution was asked for the signed statement, Attorney McKenzie declared that he thought it had been destroyed. Heated arguments followed.

"We want that statement and we want it now," demanded Attorney McKenzie. He said that he had been in the courtroom and as re-entered with a paper presumed to be the document in question, Judge Scawell adjourned court until 2 o'clock this afternoon.

MISS EDEAU declared that she had been taken to the district attorney's office and that Private Detective Martin Swanson had been in and out of the office while she was being questioned. She said that she thought something had been put into the statement also after she had come back from lunch. She admitted that she had not seen the defendants, although telling the story of their presence on Market street in the statement.

Attorney McKenzie was very severe in his examination following these admissions, and finally Miss Edeau, who seemed quite confident, declared that she thought her mother had told her the names of the defendants. She had previously stated that she had not read the newspapers as to the progress the police were making in the names of the persons they were arresting.

ATTORNEYS WRANGLE

Miss Sadie Edeau is a dressmaker and one of the principal witnesses for the state in the bomb plot case. She was on the witness stand throughout the morning in the trial of Mrs. Rena Mooney, and caused wrangling between counsel. Miss Edeau, who testified to the presence of Mr. Mooney, her husband and Warren K. Billings in front of 721 Market street on the day of the preparedness parade, was subjected to a sharp cross-questioning, by far the most rigid of the trial. Attorney Edwin McKenzie, who conducted her with queries, firing his questions at her almost faster than she could answer them. When finally an objection on the part of Assistant District Attorney George W. Hand was sustained, McKenzie became impatient.

"I have ruled on your question, Mr. McKenzie," said Judge Emmet Sewell, who is presiding, "and I will give you a chance on the correctness of the ruling."

"Taking chances with people's lives is dangerous," retorted McKenzie.

"The court does not desire a lecture, Mr. McKenzie," was the reply of Judge Sewell.

The exchange was heated and was the second indulged in between counsel and the judge.

Miss Edeau testified that she passed up Market street and stood in front

of the Camm building, which adjoins 721 Market street. She described seeing Warren K. Billings on the roof when she was in the center of the sidewalk and later said she saw him come out of the building with a suitcase in his hand. She saw Mr. and Mrs. Mooney come from the building at 721 Market street. Mooney placed a chair for his wife to sit, she said, and the only thing she heard Mrs. Mooney say was, "My, the parade is not on time."

Billings had been with the Mooneys, according to Miss Edeau, and when a policeman began to hunk the horn of an automobile at the curb she declares Mooney jogged back into the entrance. And Mrs. Mooney kept her head down. She identified a man as having been with them. She said that on occasion she made hats and was familiar with them. Later she described Billings walking towards Third street with the suitcase. All this happened, she testified, declared, between 1:30 and 1:40.

While she was walking up Market street with her mother, who was her companion throughout the afternoon, Miss Edeau asserted that at Stewart and Market streets that she and her mother saw a man with a suitcase. She said she was at this place at twenty minutes after twelve. They continued up Market street to a position in front of Sorenson's clock, where they remained throughout the afternoon.

LARGE photographic enlargements showing Sorenson's clock were presented, but Miss Edeau could not identify herself in the crowd. All she picked up was a suitcase which she thought were herself and her mother on other smaller photos.

In the trial of Warren K. Billings, Miss Edeau had not mentioned either the Mooneys or Weinberg, although she did know how that came about. Before she could state that she had not been asked any questions at that trial as to other defendants, counsel on both sides engaged in a skirmish. Attorney McKenzie wanted to know if McKenzie, Thomas O'Connor, Maxwell McNutt and Nat Coughlan, were on their feet in turn. Ferrari was the only one who spoke for the prosecution.

HAD NOT BEEN ASKED

When the foundation had been properly laid the witness was allowed to answer. She was then asked why she had not mentioned Weinberg today as the driver of the jitney at the curb. She replied that she had not been asked and Ferrari said he had overlooked the question.

Great stress was laid about the visits of Policeman Smith of the Oakland department to the Edeau home. McKenzie wanted to know why Miss Edeau had not told her story to Smith or to Detective Draper Hand of the local department, who visited her soon after Smith's call. She replied that she and her mother did not want to be "mixed up in this thing."

Later she told Hand everything she knew. McKenzie wanted to know the conversation and she said Hand asked her if she had seen anything strange in front of 721 Market street. She replied, "Yes, a man with a tin whistle and a bottle of whisky. He was thrown out of the parade and that was the first thing I thought of."

Miss Edeau's visit to Mrs. Mooney and her introduction to Mrs. Mooney by Hand under an assumed name were matters for long cross-questioning by members of the defendant's counsel.

GOL. HEUER PUT ON DEBRIS BOARD

(Continued From Page 1)

SAN FRANCISCO, June 20.—Nomination by President Wilson of Colonel William Heuer, a local authority on defense and river improvements, to a place on the California Debris Commission was announced today. Colonel Heuer was retired from army service in 1907, but since that time has been one of the Pacific Coast's leading engineers.

His work on harbor and river improvements is especially well known on this coast, where government improvements on immense tracts have been completed under his direction. Despite his age of 72 years, he is still able to undertake extensive work. Born in Missouri, he was graduated from West Point in 1885. He saw early service on California surveys, and was appointed by the government to undertake important work in the surveys of the Union and Central Pacific railroads. For many years he served the government in Key West, Philadelphia, New Orleans and New York.

After his work on the eastern coast, where his work was mainly that of harbor and river improvements, he was appointed a head engineer in the light-house department of the government. After several years, he was transferred to the harbors and rivers of the Pacific Coast, where he was in charge until 1907.

ARTILLERY ASKED FOR HOME GUARD

Orders were received today by Colonel Walter J. Peterson, commanding the Oakland Home Guard, from Adjutant General Bee of the California National Guard at Sacramento, calling for the immediate organization of 200 men and a headquarters company of 50 men.

The men are to be mustered in August 5. If the National Guard is called out as in New York and Illinois, this contingent will be among the first to reach the battle front. It is estimated that most of the home guard will be drawn upon to fill the ranks. Men subject to draft will be accepted.

HOFFMANN QUILTS

PARIS, June 20.—French newspapers today hailed the resignation of M. Hoffmann from the Swiss Federal Council, as marking the end of the long continued Swiss policy of neutrality, which has been so persistent as to create irritation in allied countries. Hoffmann's retirement was directly due to his transference of German separatist peace talk to Petrograd and was forced by the demand of a number of Swiss newspapers, who saw in such a move a breach of neutrality, likely to give affront to allied nations. Despatches from Bern today indicate that the Swiss foreign department would have been probably under direct control of the Swiss president, M. Schulthess.

Swiss newspapers have recently been bitter in their comment on Hoffmann's "mixing in foreign intrigue."

This is Red Cross Week.

LAVENSON QUILTS PORT COMMISSION

A. S. Lavenson resigned today as a member of the port commission. Lavenson's action follows that of Harrison S. Robinson, who submitted his withdrawal to the mayor yesterday. In discussing the matter Lavenson stated that he did not care to take the contents of his letter before it was read by Mayor Davis. It is understood that his letter sets forth that Lavenson resigned because of inability to obtain satisfactory results under existing conditions: that he was not satisfied with the commission's action and that under the law or interpretation of the law by the city attorney it seemed almost impossible to make progress. Other resignations are expected to follow.

NEW FUNDS MADE

ALAMEDA, June 20.—The new police and fire pensions funds were taken up by the city council in committee session last night following the council meeting. Both funds were organized on a basis of one-half pay for retired members of the two departments, with the firemen and police officers receiving two per cent monthly of their wages into the respective funds. The funds, as heretofore, are to be further financed with the dog license fees and certain other fine and license moneys received by the city.

Under the State law, a provision allows the city to maintain funds out of the tax budget but this provision was not adopted. The pension ordinance first contained a provision that thirty years service entitled the retired one to draw two-thirds pay, but this clause was taken out and the half-pay basis substituted.

WOMEN WILL AID RED CROSS WORK

A mass meeting, to organize the women of this city and enlist their services for Oakland's big Red Cross drive, will be held by the Alameda County Women's Committee of State and National Defense, Friday afternoon at 2 o'clock in Hotel Oakland. This was decided upon this morning at the committee meeting, called by Mrs. A. E. Currier, president, at 10 o'clock in Hotel Oakland. Reports from the various committees were heard.

Mrs. W. E. Gibson, of the food conservation committee suggested that a home economics department be organized in every club. She further suggested that the serving of wheat products and meat in the homes be made a study of by every housewife. Although an experiment, Mrs. Gibson reported that a luncheon was served eighteen people at her home, containing all the elements necessary as food to the body at a cost of ten cents a plate.

Mrs. George Samuels gave an interesting account of what the women of Canada were doing. She said that a great deal of work was being done and that was not a woman in Canada that was idle.

Mrs. R. Arfieda, chairman of the department of conservation of moral force, reported that her department had put a team into the field to assist the Y. M. C. A. in raising funds for establishing clubs in the military training camps.

The matter of the distribution of the farmers' produce was also brought up, and it was suggested that the peddlers license be abolished, for the farmers would have an amount of produce to a certain place, but after that the distribution of it was a problem.

YOUTH INJURED BY EXPERIMENT

ALAMEDA, June 20.—Shadbourne Elster, 13-year-old son of Mr. and Mrs. R. B. Elster, was painfully injured at his home, 1175 Regent street, this morning, when an explosive cap of some nature, attached to a piece of wire, exploded. The boy was cut about the face, head and hands. His injuries are not regarded as especially serious.

An investigation is now under way to determine the nature of the explosive. The boy has a wireless plant and was given some wire for his wireless by a neighbor boy. At the end of the wire was a cap of some sort.

WOMAN NOW IN PERFECT HEALTH

What Came From Reading a Pinkham Advertisement.

Patterson, N. J.—"I thank you for the Lydia E. Pinkham remedies as they have made me well and healthy. Some time ago I felt so run down, had pains in my back and side, was very irregular, tired, nervous, had such bad dreams, did not feel like eating and had short breath. I read your advertisement in the newspapers and decided to try a bottle of Lydia E. Pinkham's Vegetable Compound. It worked from the first bottle, so I took a second and a third, also a bottle of Lydia E. Pinkham's Blood Purifier, and now I am just as well as any other woman. I advise every woman, single or married, who is troubled with any of the above ailments, to try your wonderful Vegetable Compound and Blood Purifier and I am sure they will help her to get rid of her troubles as they did me."

Mrs. ELSIE J. VAN DER SANDE, 36 No. York St., Patterson, N. J.

Write the Lydia E. Pinkham Medicine Co., (confidential) Lynn, Mass. if you need special advice.

Go This Summer

Make Santa Cruz Monterey Bay your vacation point this year. Its healthful, invigorating climate will put you and every member of the family in trim for the strenuous year ahead.

For recreation there's golf, tennis, yachting, plunge and surf bathing, motoring over mountains and along ocean cliffs, trout and sea fishing, the Casino and beach. Band concerts every Sunday now.

Santa Cruz is easy to reach. The Southern Pacific offers very low fares. Good auto roads lead from San Francisco and interior valleys.

A Santa Cruz vacation need not be expensive for there are ample and good accommodations to suit every purse. For information about them write Chamber of Commerce.

ENDS LIFE WHEN WIFE'S LOVE FAILS

After first passing the poison cup to his wife, with whom he had quarreled early this morning, Albert McNulty, a machinist, son of Captain Chris McNulty of 152 Fifty-ninth street, committed suicide at an apartment at 214 Sixth street, San Francisco, today.

"You don't love me any more," said McNulty, who was but 24 years old, to his young wife after a dispute. He then left his apartment and, returning a half hour later, found Mrs. McNulty in bed. Approaching her he handed her a cup.

"Don't you want to drink this?" he asked. Supposing that he was giving her some kind of liquor, Mrs. McNulty refused and her husband then took it himself, draining it to the last drop. A few seconds later he was lying in agony on the floor. An ambulance was summoned and at the Central Emergency Hospital it was found he had taken lysol. He died within an hour.

McNulty's father is master of one of the Santa Fe ferries. Besides his widow he leaves a young daughter. McNulty's parents today were at a loss for a reason of their son's unexpected suicide. His mother said this morning: "I know little, except that we were notified at 4 o'clock that he had taken his life. I know nothing of quarrels; sometimes such things do happen."

The mother went to San Francisco to make arrangements for funeral services.

Respond Cheerfully for the Red Cross.

LEMON JUICE IS CAUSUS BELLI

Who's who in the matter of conducting the affairs of the McCarthy Citrus Juice Company is a matter of dispute that led to the arrest of J. B. McCarthy, founder of the concern, who is charged with disturbing the peace of Mendel Goldwater and Jake Treager, business partners. McCarthy was arrested before Police Judge Samuels today, pleaded not guilty and had the case continued until June 28 for arraignment. Recently McCarthy obtained financial backing from Goldwater and Treager and, according to Goldwater, McCarthy was employed as superintendent of the factory at 350 Forty-second avenue. His formula for preserving juice extracted from lemons was the chief stock in trade of the concern. But, Goldwater said today, none of the juice has been placed on the market to date and McCarthy, becoming dissatisfied, sought to take charge of the business with the result that he was ousted. He retaliated with the result of his being arrested. Outside of the present charge the matter is a case for civil procedure, the police say.

This is Red Cross Week.

MARITAL WOES TOLD IN COURT

Mrs. Eva Brouder, 55 years old, told Superior Judge William Conley that her husband, T. B. Brouder, 70 years old, accused her of flirting with his men friends and that he forced her to move every two months because he was afraid she would fall in love with the landlord. When any one called, she said, she was made to sit in the park until their departure. The couple were married two years ago. She was granted a divorce.

Bertrand F. Lewis was granted an interlocutory decree of divorce by Superior Judge T. W. Harris. He testified that on November 21, 1908, he gave his wife his pay envelope and has not seen her since. Myrtle Sunkler yesterday filed suit for divorce against Allan Sunkler, deputy plumbing inspector, on the ground of failure to provide.

J. H. Rockwell filed suit for divorce from Ivy Anna Rockwell on the ground of cruelty. Rockwell alleges that his wife remained away from home until a late hour.

AT THE NEW 'T & D' ELEVENTH
TODAY TO SATURDAY

LISTEN!

Good people of Oakland, to what the American Red Cross War Finance Committee, says:

Oakland, Calif., June 19, 1917.
Gentlemen: We heartily endorse the pictures taken under the auspices of the British Government and which you are showing at the "T. & D." Theater. The exhibition of actual scenes at the front will doubtless aid us materially in raising the sum allotted to Oakland—\$200,000. No one can view the sufferings of the soldiers without a sincere desire to give relief. The fact that a generous part of the proceeds go to relieve war sufferers is an additional reason for Oakland people to attend the "T. & D." Theater, and we earnestly urge them to do so. Yours very truly,

The American Red Cross War Finance Committee,

(Signed) J. H. KING,
Chairman Oakland Div.

R-E-D C-R-O-S-S

HAY CROPS ARE HEAVY; PRICES SOON TO FALL

Grain hay crops are heavier in Alameda county this year than for many a season and there is a decided downward trend in prices as a consequence, according to Theodore Gier, member of the State Board of Agriculture, in his report to that organization at a recent meeting in Sacramento. Hay is now selling for \$18 and \$20 a ton, he said, with lower prices in sight. The prairie crop is the largest ever known in the county, and the trees are so loaded that the growers are having to chop the branches. The outlook for all crops is exceptionally good.

Reports from other directors throughout the state indicated that the harvest in California this year will be far beyond the average and that prices for products of the soil will fall sharply in the near future as soon as the marketing begins. Those who presented reports on local conditions were Directors Theodore Gier, John M. Perry, George C. Reed, E. Franklin, E. F. Mitchell, C. J. Chenu, I. L. Borden, H. A. Jastro and W. Dudley.

BOYS BRING PROBE OF LUMBER CAMPS

As a result of reports made by Oakland high school boys to the State Housing Commission, to local heads of the education department of the city and other sources, a state-wide investigation is to be conducted into conditions existing in the various lumber and construction camps of the state, especially those in the northern part of California.

Responding to an appeal from the school authorities, many of the lads from the Oakland, the Oakland Technical and the Fremont high schools accepted employment in the lumber camps during vacation, to aid in filling California's demand for labor, and for the experience to be gained. Now scores of complaints are pouring in, in which it is alleged that housing conditions are bad, wages and hours have been misrepresented and other conditions not as guaranteed. As a result of these complaints, Secretary Daniel W. Pratt of the Board of Education has taken up the matter with the state authorities, and asked that an investigation be made. In this he is receiving the assistance of Deputy State Labor Commissioner John S. Blair, at Sacramento who is already in communication with Shasta and Lassen county district attorneys. Most of the lumber camps of the state are in these two counties and the state authorities purpose seeing that they live up to the conditions which they guaranteed. "I purpose seeing what more there is in these complaints," said Blair today. "As I understand it, most of the high school boys went to the lumber camps with the idea of performing a patriotic service by doing their bit toward the winning of the war. There should be no excuse in such a case, for any company to misrepresent working and living conditions."

OFFICERS NAMED

The Woman's Peace Party of California which includes in its membership some of the most notable of the feminine leaders in the state, at its annual meeting elected the following officers: State chairman, Mrs. C. E. Cumberston, Palo Alto; vice chairman, Mrs. S. M. Richardson, San Francisco; Miss Anita Whitney, Oakland; Mrs. Clara Bryant Herwood, Pasadena; Mrs. Julia Stancliff Sanford, Berkeley; recording secretary, Mrs. Robert C. Root, Berkeley; corresponding secretary, Miss Harnett Hayes, Palo Alto; treasurer, Mrs. J. C. Levy, San Francisco; advisory council, Mrs. David Starr Jordan, Mrs. A. P. Black, Mrs. Seward A. Simons, Mrs. Lillian Gray Palmer, Mrs. George Sperry, Mrs. William Kent, Mrs. John F. Merrill, Miss Margaret Stewart, Mrs. A. Schloss, Mrs. Edward Dexter Knight, Mrs. Edward B. Krehbiel.

The California Peace Party is associated with the National Peace Party of which Miss Jane Addams of Hull House, Chicago, is chairman. The meetings are held on the first Wednesday of each month at Hotel Plaza in San Francisco. A large number of the transbay city women are included in the membership. The most noteworthy accomplishment of the state organization since its conception two years ago was the passage of the bill providing for compulsory physical training in the elementary and secondary schools of California which was recently signed by Governor Stephens.

RAILWAY RATES PROBLEM HEARD

With the railroads of the state bringing every pressure to bear to secure the 15 per cent increase in freight rates which they declare is necessitated by war conditions, Oakland and sister communities are lining up for a hard fight to beat the rate before the State Railroad Commission.

At a luncheon of the traffic committee of the transportation division of the Oakland Chamber of Commerce today, a full and complete discussion of the situation was had. H. W. Force, chairman of the traffic committee presided and the meeting was opened to general talks upon the difficulties which the shippers will face if the rate is allowed to go up.

It is the contention of the railroads that patriotic loyalty demands that the increased rates be paid to permit satisfactory operation and financing to prevent delays and retrenchment in rolling stock, maintenance and motive power equipment. The shippers on the other hand, declare that an equal sense of patriotic duty would prevent such an increase being asked at a time when conditions in shipping circles were already tense.

The chamber of commerce is making strenuous efforts to obtain concerted action among the shippers of this county in fighting the proposed raise. Invitations to today's meeting were sent to various commercial and transportation organizations throughout the county pursuant to this purpose.

WATERFRONT FEUD ENDS.

RICHMOND, June 20.—With the Supreme Court sustaining the decision of Judge R. H. Lattimer of the Superior Court, the feud of the Castro Point Railway versus Anglo-Pacific Development Company has been brought to an end and the railway company will build a line to the Richmond Belt Line Railway Company at Winehaven.

MRS. BARRON, SPEEDER, GIVEN SEVERE "JOLT"

SAN JOSE, June 20.—Ten days in the county jail and a fine of \$100 was the sentence imposed upon Mrs. Ward Barron, society woman of Burlingame, by Justice of the Peace F. B. Brown yesterday when she appeared for the third time before him on a charge of speeding. At the same time the court rebuked her sharply for usurping the public highway at the risk of human life and breaking the law because she possessed abundant money.

The full portion of the sentence was finally revoked by Judge Brown after pleas for clemency had been made by her attorney, Louis Onal, and C. C. Cooldridge, representing the district attorney's office. The court announced that if the defendant appeared for the fourth time on a similar charge she would be dealt with to the full extent of the law.

Mrs. Barron was arrested by Traffic Officer Charles L. Reade, as she was exceeding the speed limit in driving to a dinner party at the home of Mrs. Francis Carolan at Cupertino. Attorney Onal informed the court that her father, J. Downey Harvey, had given surety for her good behavior in the future.

GREAT WAR FILMS

Driving home with all the might and power of the most vividly realistic scenes of actual warfare, the needs and purposes of warfare organization in America, the official British War Films now showing at the New T. & D. theater, Eleventh street at Broadway, will do more to arouse men and women to the realization of a loyal duty to their country than an epitome of speeches. For here you realize a full, the atrocious meaning of war—see your own eyes the attacks and charges from the trenches, the dropping and the effect of gas bombs, the action of the giant guns, the work of the noble men and women of the Red Cross.

The pictures are authentic. They are

BELGIAN RELIEF WORK IS RENEWED

With the cessation of requests for public aid from the Commission for Relief in Belgium and Northern France, the California committee has reorganized under the name of the California Committee for Relief in Belgium and France. It has undertaken, in its reorganized form, a portion of the work of aiding Belgium and France to regain their agricultural balance, and to repair the ravages of war in reconquered territory.

All that is allowed in Belgium today is the Federal Government ration of 7 cents a day under a loan arrangement. California food and supplies, ploughs to rehabilitate the soil and farm machinery, together with clothing and shoes, are greatly needed. Arrangements have been made for transmitting money to Belgium through Baron de Cartier of the Belgian legation, and to France through Madame Jussersand, wife of the French Ambassador, both at Washington. A fund is to be opened also for wounded Belgian soldiers in La Pann, where a hospital is being operated under direction of Dr. de Page, husband of the noted Marie de Page, known for her work on behalf of the Belgians in this country and who lost her life on the Lusitania. It is planned to establish a series of California beds in her memory.

The headquarters of the new state committee will be retained at 337 Mills building, San Francisco, the former headquarters of the previous committee. The new committee will be composed of neither padded, filled with staged scenes or studio settings. They bear the mark of the British government. You will never have a chance to see them else where in Oakland. There are five editions, two reels to each edition and the first of these will be shown today, tomorrow, Friday and Saturday.

INDICT SLACKERS STILL DEPORTING

SACRAMENTO, June 20.—Emil Lampela, 25, Alfred Johnson, 21, and Seth Arvid, 28, all of Eureka, Humboldt county, were today indicted for failing to register for military service on June 5 by the federal grand jury of the northern district in session in Sacramento. The bail of each man was placed at \$1000.

HAVER, (via London), June 20.—The Belgian government, in an official statement issued today, denounces the bad faith of the denial of the Wolff Bureau, on June 7, of the continuation of the deportation of Belgians. The Belgian government maintains that the deportations continue.

Eat what
you like!

and enjoy it. Put your stomach in shape to digest your food and take from it its strength-giving, health-building elements. Stumize helps Nature to help herself.

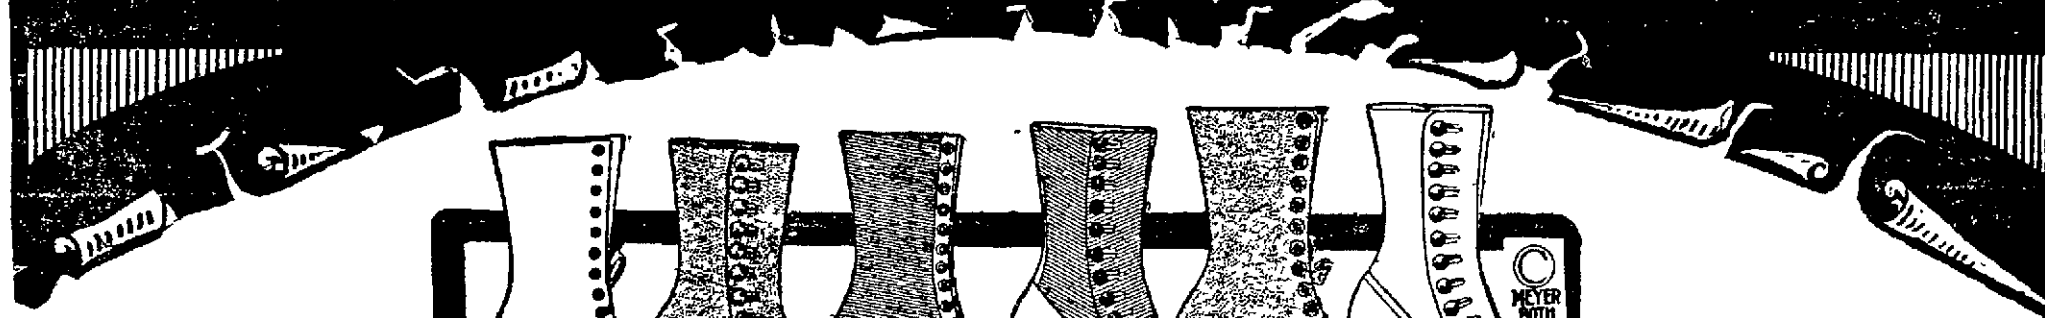

Stumize

Hundreds of people who have tried after-dinner pills, peppin tablets, artificial digestants, and all sorts of cheap medicines without success, now gladly pay the full price for a real remedy. Why continue the agony, torture and discomfort of a sick, out-of-order stomach, when instant, guaranteed relief is waiting for you at the nearest drug store. Get a bottle of Stumize today. It is a real stomach medicine, not an after-dinner tablet.

For sale and guaranteed by all good druggists.

CHEMICAL PLANT WILL BE BUILT

BERKELEY, June 20.—Silicate of soda manufacture on a large scale is to be added to this city's other productive enterprises upon the completion of a \$100,000 plant at the foot of Grayson street immediately to be erected by the Philadelphia Quartz Co., an organization recently formed with A. C. Elkington as president. Building materials will be on the ground this month, and by the end of the year, the plant is expected to be completed.

The company was formed by the consolidation of an original firm of the same name, with headquarters at Philadelphia, with the Stauffer Chemical Co. It will be run independently, according to Elkington, of any eastern firm and will be the largest manufacturing enterprise of its sort in the west.

Help Save the Wounded.

At an expense of \$3500, and without interrupting the regular course of business, the mezzanine floor of the SADDLE ROCK has been transformed into the

Kisich's Balcony

where the women of Oakland may partake of light refreshment, luncheon and afternoon tea, where those who enjoy a Dansant Dinner or after theater supper may entertain their friends, and where those who prefer may occupy balcony tables, giving an unobstructed view of the merry-makers below.

NOTICE. The same moderate prices will prevail in the Balcony as on the main floor.

Substantial Lunch 50c
Dansant Dinner \$1.00
Sunday Concert Dinner \$1.25

Reservations.

Auto Hits Car: Girl Is Hurt Hurlled to Street by Impact

Miss Marie Meyers of Hayward narrowly escaped death today when she was thrown from an automobile in which she was riding with L. R. Rosenberg, also of Hayward and G. W. Cavanaugh of this city, which was struck by a street car at Fourth and Broadway. Miss Meyers, suffering from severe lacerations and shock, was taken to the Emergency hospital, a block away, by Deputy Sheriff J. M. Schwab, who witnessed the accident.

Miss Meyers was returning to Hayward with Rosenberg and Cavanaugh after appearing as a witness in a Superior Court case this morning. As Rosenberg was crossing the track the machine was struck a glancing blow by a street car in charge of Conductor Roy Stromer and Motorman J. R. Blue. The automobile was turned completely around and did not capsize. Miss Meyers was thrown from the machine striking her head on the pavement. She was picked up in a semi-conscious condition and rushed to the hospital.

800 GIRLS MAY BE GANG VICTIMS

NEW YORK, June 20.—More than 800 girls between the ages of 10 and 20 years have disappeared from their homes here since January 1, it transpired today coincident with an announcement by Police Commissioner Arthur Woods that he had ordered begun the most searching inquiry into police conditions as a result of the murder of Ruth Cruger, the high school graduate whose body was found buried in a cellar under a bicycle shop belonging to Alfredo Cocchi, several days ago. In this connection, importance is attached to the statement made by Miss Consuelo La Rue that she had jumped from a window of her apartment yesterday to escape being killed by two men who attacked her because she had given information which resulted in Miss Cruger's body being found. Whether Miss La Rue had any definite connection with the Cruger case had not been finally settled today. She is said, however, to be in possession of much valuable information regarding the white slave traffic and it is reported she is prepared to make revelations almost as startling as those in the Cruger case.

Word was expected today regarding whether Cocchi, who has been requested of the Italian authorities by the State Department, has been arrested in Bologna, Italy.

Various articles of girls' clothing found in Cocchi's shop were put on exhibition today in the hope that they could be identified by relatives of other missing girls. Members of the Cruger family were unable to identify these articles as the Cruger girl's possessions. A length of bone, charred, unearthed today has led to renewed digging in the cellar in a search for traces of other possible victims.

If you Can't Enlist, Contribute.

AUTO OWNERS WILL COMPETE IN TESTS

If careful driving and good records will get them there, Maxwell owners in both San Francisco and Oakland are sure to score notably in the big \$50,000 Liberty Bond gasoline economy contest being staged all over the country by the Maxwell Motor Sales corporation. More than the anticipated number of owners have registered with the Western Motors Company on both sides of the bay, and the competition is being made to enforce the rules of the test which call for close observation and accurate return of the mileage used. Western Motors officials are co-operating with the Standard Oil filling stations in allowing each contestant an exact gallon of fuel. Three observers travel with each car, and one of three officially designated routes must be traveled.

In order to equalize matters, the courses allotted to the contestants are the same distance. Each measures twelve miles from Western Motors headquarters to the end; then the course must be traversed back to the starting point, and the original trip duplicated until the supply of fuel is exhausted.

There are still plenty of Maxwell owners in this vicinity who have not entered the contest, said General Manager Robert Alvies of the Western Motors Company.

It seems that these are overlooking a mighty good chance to get something for nothing. The conditions of the contest are most liberal, for all the Maxwell owner has to do is secure three of his own neighbors to ride with him as observers. We furnish the gas and the official gasoline car, map out the route, so all the owner has to do is drive his car and make his report. Three \$50 Liberty Bonds here and three more of the same kind elsewhere, and the owner is among the possibilities as prizes, and any Maxwell owner who doesn't enter is missing a chance to get a Liberty Bond free.

The contest will run from now until June 30. As fast as they are enrolled, local entrants are given a designated time in which to make their runs, and the tests are completed at convenient intervals.

CAMP GROUND PLANNED

Oakland is planning to have a campground for transients, motorists, and campers coming to the Pacific coast over the Lincoln highway. A special sub-committee of the Lincoln Highway Committee of the Oakland Chamber of Commerce has been looking over sites for some months and announcement of a selection is expected shortly.

Oroville already has established such a campground, according to a letter just received by Joseph E. Caine, managing director of the Oakland Chamber, from E. B. Ward, secretary of the Oroville Chamber. Ward writes:

"The Oroville Chamber of Commerce has opened at Oroville a free auto campground for auto campers exclusively, no other campers being allowed. This ground has been equipped with electric lights, running water, shower baths, cooking stoves and ranges and every convenience for comfort."

It is situated on the bank of the Feather river inside the city limits and nearby swimming can be indulged in it.

A good man is in charge there during the day, and it is all free, and all tourists are invited.

It is the plan of the Lincoln highway promoters eventually to establish such camping spots all along the route. Salt Lake City already has such a camp ground in one of its city parks.

THEY ALL LIKE IT

"Tenting tonight will be this summer's popular diversion among motorists," states W. L. Hughson of the Kasek-Kar. "While there will be more automobile camping tours than ever, the big increase will be among those business men who cannot leave their offices for any length of time."

"These are the owners who will motor to some neighboring stream or resort where they and their families can camp over night, returning to business in the cool hours of the early morning, rested and thoroughly refreshed."

"This is not only another advantage the automobile gives owners but it emphasizes the utility of the all-year car, the top of which is entirely removable for summer tours or jaunts where a roofless car is necessary for complete enjoyment."

WEBBER ON TRIP

W. L. Webber manager Cadillac branch, Oakland, California, left Saturday for Philadelphia, New York, Detroit and Chicago, to inspect the various branches in the east.

It is the policy of Don Lee, from time to time, to send his managers over the country, that they may learn the latest and best methods of handling the question of automobile service.

Webber is only making a flying trip and expects to be back July 1.

FIRES NEAR BIG BASIN CHECKED

SAN JOSE, June 20.—Brush fires along Gages creek, seven miles from the State Redwood Park, known as the Big Basin, were reported under control today. About 100 acres of waste land was burned over.

State foresters, under the direction of Ernest G. Dudley, have been working in the districts for weeks building fire trails, which are credited by observers today with having averted a disastrous conflagration.

The fire started Friday afternoon at the Campbell lumber mills, on Gages creek, in San Mateo county, near the Santa Cruz line. The wind swept the flames toward the outer rim of the Coast range.

Most of the fighters had returned to their homes when a bit of brush, which had been smoldering, burst into flame and started the fire anew.

FOREST FIRES IN OREGON

HOOD RIVER, Ore., June 20.—A spreading forest fire has gained headway in the forests of Skamania

OAKLAND WINS WOMEN'S CLUB '18 CONVENTION

Oakland will be the focal point for more than 1000 women of California in 1918, according to information received today by the Oakland Chamber of Commerce.

The information was contained in a letter addressed to the commercial body by Mrs. Ella M. Vandergrift, 74 Fairmount avenue, president of the Ebell club, who had been informed by the corresponding secretary of the state organization, which has just closed its sessions in Los Angeles, that the Ebell club's invitation to meet in Oakland, next year had been accepted.

Mrs. H. E. Cable of Los Angeles is president of the State organization.

The information was received in Los Angeles, across the Columbia river from here. The burning area is between the Little White Salmon and the Wind rivers.

FAIR DIVORCEE BECOMES BRIDE

Friends of the former Mrs. Edan Guld, pretty divorcee of Richmond, and George R. Biggs, son of a New York toy manufacturer, who came to this city from Richmond late yesterday afternoon, without taking anyone into their confidence and were quietly married, are looking for the young couple to extend congratulations. The wedding came as a surprise, becoming known only when it was learned from the family that they had gone to Oakland to secure a license.

The bride is the daughter of L. H. Schrader, prominent Richmond merchant.

Sour Stomach. This is a mild form of indigestion. It is usually brought on by eating too rapidly or too much, or of food not suited to your digestive organs. If you eat slowly, masticate your food thoroughly, eat but little meat and none at all for a week, you will soon likely avoid the sour stomach without taking any medicine whatever. When you have your stomach take one of Chamberlain's Tablets to aid digestion. For sale by Osgood Bros Drug Stores.—Advertisement.

GREAT PIANO HOUSE NOW SELLING OUT

Musical instruments of every kind and description; regular pianos, player pianos, grand pianos, pipe organs, electric self-playing pianos, orchestrions, etc., all sacrificed for immediate sale.

Take ten minutes today or tonight; come here, and see the beautiful instruments. Note the unheard of, outlandishly low closing out sale prices. You will realize the genuineness of the sacrifice.

Prices can never be lower than now! Rows of pianos and player pianos, and many grands at less than they cost us. We have done all within our power in the matter of price slashing, but go another step further by arranging terms of payment more liberal than ever before.

Vancouver. With its magnificent harbor and fine new Canadian Pacific Hotel, a city of motor drives, motels, and prodigious trees. An ideal place for a vacation. Port for Alaska and Trans-Pacific Travel.

SEES DANGER IN CENSORING WAR PROGRESS

ATLANTA, Ga., June 20. — A nationwide campaign of information "deliberately designed to bring to people of the United States quickly a thorough understanding of all phases of the war, of why we are in it, of the kind of enemy we are fighting, and of the urgent necessity for the whole people of the United States to join with their very hearts and souls in the stupendous task," was advocated by Pomeroy Burton, in an address which he delivered at the International Rotary convention here. Burton, the well known American journalist in London who has been lecturing in the United States upon the relation of the United States to the war, spoke as follows:

"For nearly three years the grim and bloody finger of war has pointed straight this way. For nearly three years, and each succeeding day with accumulating force, urgent reasons have existed for putting in order the defensive machinery of this country.

"After nearly three years of war on a scale such as the world never did before, involving country after country, and sweeping steadily on, like an overwhelming tidal wave, war warning after warning of the most definite character—the Lusitania, the Sussex, the Arabic—with lightning flashes and deafening peals of thunder from the darkening skies to tell all who were not blind and deaf of the approaching storm; despite all of these, today finds great masses of the population throughout the United States dangerously apathetic and oblivious to the acute peril which threatens them. It also finds this country astoundingly unprepared.

"I am not one of those who believe the allies can conquer in the end; but so serious are some features of the war situation today that unless the people of the United States awaken quickly to a full sense of their individual responsibilities and join heartily in the work of organizing the country for war on an enormous scale, there is almost certain to ensue a long period of ghastly carnage and world-wide suffering with ruin and starvation on every side, and by a long period I mean from five to twenty years, or more.

"If, coupled with this urgently needed campaign, there could be accomplished a radical revision of the French and English conscription laws, permitting a much freer flow of all sorts of war facts and war developments from the fighting areas than is possible under the present conditions, the effect, I feel sure, would be enormously beneficial to the whole allied cause.

"Reverse this policy of secrecy, let the people at home have these and other true pictures of the war as it really is, and I firmly believe the response would be electrical—the people of the United States would rise as one man to their task, fired with patriotic fervor by a full and true understanding of what this war means to them and their future, of the individual and the nation upon those at home as well as upon those who are constantly facing death in the firing line for the sake of those at home.

"And this, it seems to me, is of paramount importance in view of circumstances which exist today clearly indicating that, as this country organizes for war quickly or slowly, well or badly, earnestly or listlessly, so will the end of the war be soon, long or coming.

"STRANGE LETHARGY." Burton said that one of the reasons for the "strange lethargy" of the people of the United States was the policy of close censorship practiced by the entente allies and that this policy already "has cost countless thousands of lives and untold treasure."

"I earnestly hope it will not be repeated here," said Burton, "but the public is entitled to the war news except those matters which military and naval experts judge to be of active value to the enemy. Establish a censorship board of five newspaper men, with consulting military and naval advisers and proceed upon that basis and the war will end there will be an end to all this foolish censorship discussion, the public will get the facts and military and naval developments for publication will be automatically withheld."

JACKSON'S STAND Commissioner F. F. Jackson stated today that he has no comment to make regarding the report of the Police grand jury which was filed in the Superior Court yesterday. The report criticized Dr. Jackson for not having discharged Captain of Police Thorwald Brown as was recommended by the grand jury following an investigation into Captain Brown's alleged activities in selling oil stock.

"I do not care to discuss the grand jury report," said Jackson, "I gave my verdict when I had a hearing in the Captain Brown case."

Your Boy May Need the Aid.

Here Again on Demonstration

"AIREO" BUTTER MERGER

98c

In response to repeated requests from customers who heard about the demonstration last month, we arranged another starting tomorrow morning.

With a pound of butter and a pint of milk you can make TWO POUNDS OF DELICIOUS SWEET BUTTER.

Come and see it done. Taste the result!

New Concern Will Handle City Garbage After June 30

Scavengers, With Horse-Drawn Carts Will Give Place to Auto Trucks

With the awarding of a year's contract for collecting the city's garbage to H. F. LaVoll for a consideration of \$1350, the city council upset tradition of several years' standing wherein the Oakland Scavengers' Association has held the contract by paying \$1000 a month, and at the same time paved the way for a new system of collection in which automobile trucks will be used instead of the familiar blue horse-drawn wagons.

As the result of the unexpected upheaval the garbage situation, nearly 150 men with their equipment of 300 horses and 70 wagons will be put out of business July 1, at which time the new concern will commence its collections. LaVoll will be manager of the City Sanitary Reduction Company, which he incorporated this week by C. H. Linn, D. F. Quinn and H. C. Hicks, with a capitalization of \$75,000. The capital will represent the initial investment in equipment which will at the start include fifteen standard automobile trucks. This number will be gradually increased to thirty or forty as the business develops. LaVoll outbid the scavengers' association by \$350 and the city will profit that much additional over the \$1000 a month that is now paid by the present collectors. The outbidding of the scavengers' association came as a surprise to the members of the organization and there were rumors that there would be a strike if the council accepted the other bid.

WILL FILL CONTRACT. L. G. Bonzagni, business manager of the scavengers' association, stated today that the members will fulfill their contract up to and including June 30, after which time they will retire gracefully.

"We are game losers," Bonzagni said. "The members have not been making any money out of this garbage. We were paying twice as much as we could afford for the privilege and if any other concern wants to take a try at it they are welcome. It will remain for the public to find out whether the garbage is handled in an efficient and sanitary manner."

"By the loss of this contract nearly seventy families are cut off from their incomes as the men and their horses are put out of business without much notice. They will manage to get along in some way or other. None of them, it is likely, will accept employment with the new concern. They will all stick together as they have always done."

WILL HOLD CONTRACT. LaVoll assured the members of the council that in taking out the contract it was not his intention to dispose of the contract to the association at a profit or to anyone else. It will be turned over to the corporation in which he is interested.

"We assure the council that the garbage will be handled in a highly sanitary manner and by efficient employees so that everyone will have satisfactory service," he said.

As to the possibility of a strike being called by the scavengers between now and July 1 LaVoll said that in that event he is prepared to bring in trucks to handle the situation on twenty-four hours' notice and do the work.

RAILROAD TRACK IS WASHED AWAY

GRAND JUNCTION, Colo., June 20.—Repair crews who have been busy for days on flood protection work along the Grand river were occupied in determining the extent of damage caused to railroad property when the stream suddenly changed its channel, shortly after midnight this morning. The change in channel was caused by the caving in of a quantity of earth and rock from a mountain which the stream had undermined. This damaged the old course, and the waters, which have been at flood stage for days, found a new one for themselves along the right of way at Tunnel, seven miles from Palisade, which is about twenty miles from here.

Estimates of the damage could not be made last night, though a repair gang foreman reported "hundreds of feet" of Denver and Rio Grande railroad track washed out. All the railroad buildings at Tunnel were washed away.

At first it was reported that the river actually was flowing through a tunnel, from which the station takes its name, but this was denied later. The Grand river has been at 12 feet or higher stages, the greatest in its history, since Monday.

Portions of the country near here have been inundated, with some of the water of women's suffrage bills, which all the members of the house at various dates on second reading.

The government left the question to the unfettered judgment of the house not attempting to influence opinion on it in the least degree. The front benches on both sides lacked most of their leadership and the government's conclusion hung over the whole of the discussion.

The opponents of the measure among the arguments made the best they could of the reports received here of the attitude of Miss Jeannette Rankin, the only woman representative in the American Congress, on the question of the entry of the United States into the war.

St. Frederick's Unionist, for instance, described Miss Rankin as having been hysterical and unable to vote, but this another plea against the bill. The aim of women's suffrage was called the members' troops into the house with the aim of putting an end once for all to a question which they had made up their minds no longer was an academic one, by voting upon it as the issue.

So assured were the supporters of the measure of the outcome of the division that the majority of the majority in its favor did not move them to any unusual demonstration when the figures were announced.

The decisive division is expected Wednesday in the adoption of a proposal for the enfranchisement of women of thirty years and upward as part of the electoral reform bill.

SPAIN 'TRANQUIL,' DECLARES ENVOY

WASHINGTON, June 20.—Senator Riano, the Spanish ambassador, declared today that reports of impending revolution in Spain are without foundation. He added that complaints had been made by one of the branches of the army, but that they had been attended to in a satisfactory way and that tranquillity now reigns.

The ambassador gave out the following statement:

"The news reports circulated in the United States regarding the interior situation of Spain are absolutely incorrect. Tranquillity prevails, both material and moral. Certain complaints of an interior character in one of the arms of the army have been attended to insofar as they were just, and this in no way is related with the interior politics and far less with the international policy of Spain, which is being developed normally within the monarchical regime and constitutional practices."

PARIS, June 20.—Prague, the capital of Bohemia, has been the scene of a strong revolutionary movement for several days, said a despatch to the Matin today. The Czechs' committee of workmen are scattering proclamations calling for a constituent assembly of Czech peoples.

WOODMEN ELECT CHICAGO, June 20.—The Modern Woodmen of America, in convention here this afternoon, elected by acclamation the following officers, who had been agreed upon in caucus: Head consul, A. R. Talbot, Lincoln, Neb.; head advisor, D. H. Horne, Denver, Ia.; head clerk, N. B. Bort, Beloit, Wis.; head banker, O. E. Aleshire, Chicago; head escort, R. C. Bell, West Hope, N. D.; head secretary, Frank L. Bennett, Haverstown, Md.; head warden, C. T. H. Hughes, Affet, Tenn.; head chaplain, Rev. Henry E. Dunnacau, Augusta, Maine.

The report of the war risks committee recommending a by-law for a special assessment to pay all war death losses, was adopted amid a patriotic demonstration that lasted several minutes.

CALL OFF TOURNEY NEW YORK, June 20.—The National Amateur golf championship tournament of the United States Golf Association, was formally called off today because of the war.

PLACED IN ZONE BERKELEY, June 20.—Northbrae properties have been declared in zone one by the city council over the protest of Roy L. Donley, John H. Petherick and other property owners in the district. A majority of the Northbrae Improvement club favored the zoning of the district. Donley and other protesters feared the zoning would nullify certain American strings of property already placed in the property deeds in the district.

REFERENDUM WILL FIGHT TAX CURB

SACRAMENTO, June 20.—Referendum proceedings will be instituted by educators of the State against assembly Bill 1013, which becomes effective July 27, aimed to regulate tax levies by prohibiting county boards of supervisors from exceeding by more than 5% the tax levy of the previous year, and also providing for the creation of a state board of authorization.

Will C. Wood, state commissioner of high schools, declares that the bill is dangerous and if it becomes effective will destroy the school system that educators have striven for fifty years to build up. In that section fifteen of the act repeals all minimum tax provisions, including the minimum amounts for schools. Wood says that this section unquestionably repeals the law requiring counties to raise the minimum amounts of \$550 per teacher for elementary schools and \$60 per pupil for high schools.

Job Wood, state statistician of the board of education, declares that the referendum proceedings should be started against the whole act instead of section fifteen only. He also says he believes the act unconstitutional as it infringes on the rights of the people to raise any amount in taxes that they deem advisable.

Clyde Seavey of the State Board of Control and author of the bill, said today that the educators are unnecessarily perturbed and that the act will not injure the schools. He says that if section fifteen is stricken out by referendum it will not injure the effectiveness of the bill.

FIFTEEN FAMOUS NAMES SELECTED

BERKELEY, June 20.—With the finishing of the selection work of the new reading room in the library of the University of California the names of fifteen men who have been unique contributors to the progress of the world in sciences and whose work represents some typical character of thought or has transformed the better the conditions of civilization are taking their place in the frieze.

The names of the fifteen were selected by Professor Charles H. Smith, head of the department of English, and Professor Henry Morse Stephens, Sather professor of history, and head of the department. They sought, they say, to choose names that were not only fitting but that had not been "stated with custom. This is their list:

Dante, representing imaginative literature and political thought; Gutenberg, founder of the printing art; Erasmus, representing education and the Renaissance; Machiavelli, political thought and literature; Shakespeare, imaginative literature; Galileo, philosophy and experimental philosophy; Descartes, philosophy; Voltaire, history, literature, philosophy and social science as representing the "illumination"; Adam Smith, economics; Kant, philosophy; Gibbon, historical science; Goethe, imaginative literature, philosophy and natural science; Cuvier, natural science; Darwin, natural science.

A Latin motto devised by Isaac Flag, professor of Greek emeritus, has been chosen over the last doorway. It reads: "Bene legere, sapientia vincere." ("To read well is to vanquish the centuries.")

BODY RECOVERED

BERKELEY, June 20.—Funeral services will be conducted tomorrow afternoon for nine-year-old Roy Alexander Koff, who lost his life by drowning off the municipal wharf Monday night. The body was recovered yesterday from the bay waters near the point where the lad, at play with his brother, had missed his footing at the edge of the wharf and stumbled in.

As a result of the accident an ordinance has been drawn up by the city council preventing the presence of boys under sixteen years of age on the city wharf. It was introduced by Commissioner Christian Hoff and has been referred to committee of the whole.

TO BUILD WHARF

BERKELEY, June 20.—The Heywood Lumber Co. has begun the erection of a new wharf for the Catalytic Chemical Co. to extend into the bay 100 feet from the plant of the company at the foot of Bancroft way. The wharf will carry lumber from the lumber company to conduct fumes from its plant into the bay. These fumes have caused numerous complaints from residents of the district in the past.

BUSY ON VACCINE

BERKELEY, June 20.—Additional force has been put on at the Cutter Laboratories in West Berkeley, to complete in a short time the preparation of a large quantity of vaccine virus. The company has received a huge order for material for smallpox vaccination in the United States army from the department of war.

GIRL IS ACQUITTED

NEW YORK, June 20.—Eleanor Wilson Parker, a Barnard College senior, was acquitted today by direction of the federal court of the charge of conspiring to defeat the operation of the selective draft law. The cases of Owen Cattell and Charles F. Phillips, students, who were indicted with her, went to the jury.

BULLETS KILL 3

NATCHITOCHES, La., June 20.—Three persons were killed, two others were fatally hurt and two bystanders were hit by flying bullets today when Chief of Police Leo Russo attempted to arrest George Piker, who was in a drunken rampage.

FAREWELLS TO TWO COUNCILMEN ARE IMPROMPTU

Commissioner Harry S. Anderson presided at the session of the city council today in the absence of Mayor David. Commissioners Bacora and Jackson constituted the quorum, and the meeting evolved into an impromptu farewell to the retiring members.

Taking his position in the mayor's chair, Commissioner Anderson looked about the chamber and, spotting former Mayor Frank K. Mott present, called upon him to take a seat beside him on the rostrum. His glance next rested upon Wilbur Walker, veteran secretary of the Merchants' Exchange, whom he invited to take the other seat beside him.

The usual routine of business was transacted without interruption, comment or opposition, whereupon Chairman Anderson called upon different ones present for remarks.

Mott, at the solicitation of Commissioner Bacora, told "how it feels to be out of public office," and also related features in the historical progress of Oakland.

Wilbur Walker congratulated the retiring officials for their efficient service to the city and welcomed them back into private life.

LOTTMAN MUST FACE NEW TRIAL

Frank H. Lottman, Richmond liquor dealer charged with manslaughter in connection with the death of Patrolman A. C. Gillem, will be retried in the Superior Court on July 18, as a result of the disagreement of a jury in Superior Court today. The jury stood seven to five for conviction after being out all night. Lottman's bail was ordered reduced from \$20,000 to \$10,000 by the court following the dismissal of the jury and the resetting of the case for trial.

A charge of manslaughter was placed against Lottman after he served a most instantly after Patrolman Gillem with his automobile at Sixth and San Pablo avenue April 12. Lottman is said to have admitted to the police at the time that he had been drinking on the day of the accident. Pending his trial Lottman was confined in the county jail because of his inability to raise the \$20,000 bail.

Another official announcement cautions eligible men that because they escape the first or subsequent levies, they are not released from liability to service.

An announcement by Provost Marshal General Crowder today stated that the assignments to the different branches will be made at the discretion of the War Department.

Most of the men brought into the army by selection are for the infantry. The draft is for the army alone—in no cases are men to be assigned to the navy.

The War Department places the burden of learning whether or not they are drafted, wholly upon absentees. It was suggested today that they make arrangements with friends to notify them at once if drawn by the lottery.

Another official announcement cautions eligible men that because they escape the first or subsequent levies, they are not released from liability to service.

DRAFT RULES ARE BEING ARRANGED

WASHINGTON, June 20.—Men drafted into the new armies will, to a great extent, have to take their chances as to the branch of service in which they want to serve.

An announcement by Provost Marshal General Crowder today stated that the assignments to the different branches will be made at the discretion of the War Department.

Most of the men brought into the army by selection are for the infantry. The draft is for the army alone—in no cases are men to be assigned to the navy.

DRUIDS ELECT
YEAR'S OFFICERS

PLACERVILLE, June 20.—Percy S. King of Napa was elected noble grand of the United Ancient Order Druids at the grand grove and grand circle conventions here today.

Adelaide M. Guisti of San Francisco was elected grand arch druidess. Other officers follow:

Lee Wells, Pleasanton, deputy grand arch; C. A. Oughefmont, San Francisco, grand secretary; E. N. Cadanasso, San Francisco, grand treasurer; H. P. Vicini, Jackson, grand marshal; R. B. Ogilvie, San Francisco, grand herald; Lottie Moody, San Francisco, noble first bard; Mary Jackson, San Francisco, noble second bard; Ida Wheeler, San Francisco, noble third bard; Ida Wheeler, San Francisco, grand secretary; Rose Peters, San Francisco, grand treasurer.

Santa Cruz was chosen for the 1918 conventions.

About 400 participated in the automobile trip to Coloma and the tomb of James Marshall, the discoverer of gold in California. There were 700 at the grand ball. Santa Cruz seemed accepted as the 1918 meeting place of the Druids, as it was the only city nominated. The higher officers are running unopposed. Officers nominated by the Grand Circle:

Grand arch druidess—Adelaide M. N. Guisti.

Grand first bard—Lottie Moody.

Grand second bard—Mary Valente.

Grand secretary—Ida F. Wheeler.

Grand treasurer—Rose Peters.

Grand conductress—Mary Decker.

Grand guardian—Elizabeth Derr.

Grand sentinel—Jessie Parodi and Pearl Bickley.

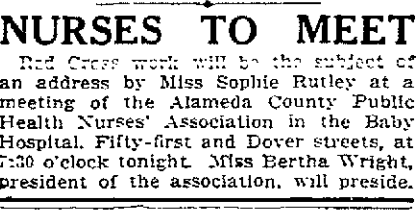

Grand chaplain—Annie Lacko and Theresa Decker.

Grand trustees—Dolly Bowman, Mary Marucci, G. Gallo.

Grand auditors—Emma Wedemeyer, Julia Smith and Mary Shelle.

NURSES TO MEET

Red Cross work will be the subject of an address by Miss Sophie Rutley at a meeting of the Alameda County Public Health Nurses' Association in the Baby Hospital, Fifty-first and Decker streets, at 7:30 o'clock tonight. Mrs. Gertha Wright, president of the association, will preside.

Let Cuticura Care for Baby's Skin

It's really wonderful how quickly a hot bath with Cuticura Soap followed by a gentle anointment with Cuticura Ointment relieves skin irritations which keep baby wakeful and restless, permit sleep for infant and rest for mother and points to speedy healing in most cases when it seems nothing would do any good. This is only one of the many things Cuticura does for the skin when used for every-day toilet purposes. The Soap to cleanse the pores, the Ointment to soothe the first signs of irritation, redness and roughness. It will be hard to find anything superior to these fragrant, super-creamy emollients.

Sample Each Free by Mail. Address post-card: "Cuticura, Dept. 5G, Boston." Sold everywhere.

PERCY AND FERDIE---Give Hotbunn His Root Beer by All Means

Society

The J. A. Smilie residence in Fallon street has donned a summer's disguise this evening for it is the marriage night of Miss Elizabeth Smilie and Charles Claude Brown. Masses of roses in their varying shades of pink, a bewitching blending of sweet peas in pinks and lavenders, against a background of palms, has transformed the old mansion into a veritable June scene. There will be five score guests to witness the ceremony, which will be read in the living room by the Rev. Frank Smilie, of the First Presbyterian Church. Charles Smilie will give his sister into the keeping of her husband. In the small bridal party will be the two sisters of Miss Smilie—Mrs. Alder, McElrath (Mary Smilie) as matron of honor; Miss Lila Smilie, as bridesmaid; Fred Brown, who will assist his brother as best man, and two ushers—Alden McElrath and Remi Knight.

The wedding gown is an exquisite one, combining white satin and chiffon, heavily embroidered on bodice and train. The veil will be caught with a half-wreath of orange blossoms and the shower bouquet will be of white roses and lilies of the valley, knotted together with tulle.

Both Mrs. McElrath and Miss Smilie will be robed alike in orchid-shaded gowns of chiffon and satin and they will carry armfuls of lavender. A chic arrangement of orchid tulle in their hair will complete the charming costumes.

It is deeply regretted that the new home of Brown and his bride is to be established even so far away as Crockett, where Brown holds a responsible position. Not many of the brides-elect of the season have been entertained more persistently than Miss Smilie. She is a graduate of the University of California and is an Alpha Phi girl. Brown is an engineer who also claims the University of California for his alma mater. He is a member of the Phi Sigma Kappa fraternity.

The old reasons for entertaining still hold good and the visitors in our midst, the bride-elect or the young matron just returned from her honeymoon, and she who goes away to establish her home in new fields gain a little consideration on the social calendar. But everything is most informal as befits us in the summer time which falls in war time. That is, the luncheon at the Claremont Country Club the setting for the luncheon, which, of course, will be followed by an informal game of bridge.

Mrs. H. H. Sherwood and Miss Mary Sherwood have opened their charming mountain place in Brookdale, where they are spending some delightfully happy days. With their motor they are quite independent of about equally between their Berkeley home and the summer place during the next few months. Mr. and Mrs. Sherwood and their daughter, the hospitable "open house" and whenever they return from town to the mountains they take a small party with them. The Brookdale place is blessed with a deep creek, which the university experts have pronounced to hold the purest water in the state and giant trees lend the picturesque setting to the interesting out of door life. All of the Sherwoods are golf enthusiasts of no mean skill and when the desire for a good game seizes them they jump in their machine for the Santa Cruz Country Club to try out the fine links there. There is a movement to erect a splendid new clubhouse on the links for the accommodation of golfers and to make the Santa Cruz fields the summer rallying grounds for the clans. The scheme has the eager support of C. C. Moore and other capitalists whose handsome country places are in the neighborhood and who entertain on a magnificent scale through the year.

There has been a very general swinging around of homes the past month in the exclusive Piedmont district and several of the popular matrons are finding themselves presiding over residences formerly presided over by others who have moved on a block or so to one which more fully meets their ideas of comfort. The Edwin Olivers, who some weeks ago purchased the handsome place on the William Edes, have taken possession and are just about settled in the new mansion, which the Edes found to be unnecessarily spacious for their needs. And so the Edes have gone down to Oakland and Bonita avenues and are deeply satisfied in the delightful place formerly occupied by the Olivers. The Robert Neelands have moved, albeit not next door. But the neighboring house was one which they have looked upon with coveting eyes and when the opportunity came to obtain the Bonita avenue residence they embraced it. Dr. Buteau and his family, after all the years of their residence in Oakland, have been lured to the hills and are expecting much pleasure from the

Carl's Bedtime Stories

By Howard R. Garis

"Well, I suppose you are going on guard duty in your soldier trench, or ditch, in front of your tent tonight, are you not?" asked Nurse Jane Fuzzy Wuzzy, the muskrat lady housekeeper for Uncle Wiggily Longears, the rabbit gentleman, as she waved "hello!" to him one morning from the hollow stump bungalow.

Uncle Wiggily himself was marching up and down in front of his tent, where he had stayed all night, being on guard or awake part of the dark hours, to make sure the mosquito bug enemy did not come and carry him off.

"Yes," he answered Nurse Jane. "I expect to do guard duty tonight. I'll march up and down in my trench, or ditch, into which the mosquitoes cannot throw stones at me. But why do you ask?"

"Because I have a little surprise for you," said Nurse Jane. "See, I have made for you a long overcoat, such as the real soldiers wear when they are on guard. It must get very hot, especially about 11 o'clock, and if you wear this coat you will not be chilly."

"That's fine! Thank you!" cried Uncle Wiggily as he saw the coat the muskrat lady nurse had made for him. It was long, reaching down almost to his heels, and it had a big collar which could be turned up around the rabbit gentleman's neck. It did not cover his ears, for there were two tall tufts of hair (his picture), and it would have taken a whole overcoat and part of another one, to say nothing of a collar, to have covered Uncle Wiggily's ears.

"Put it on and let me see how it fits," said Nurse Jane. "I made it from your last year's fur coat, and it may want a little changing."

But it didn't—not a bit. It fitted Uncle Wiggily just like a postage stamp on a letter, and he looked in it.

"I'll wear it tonight when I go on guard duty," he said. "Thank you very much, Nurse Jane. I'll be sure to wear it."

That afternoon Johnnie and Billie Bushytail, the squirrel boys; Billie Wag-tail, the goat; Jimmie Wibble-wobble, the duck; and many others came to have Uncle Wiggily show them how to drill and practice soldiers in the trench and in front of the hollow stump bungalow.

"We must be always ready for the mosquito enemy," said the bunny rabbit. There is no telling when they may swoop down on us!—Attention! Fall in!"

"Do you mean fall in the ditch?" asked laughing the Longtail, a mouse boy.

"Nonsense!" cried Uncle Wiggily. "I mean fall in line; or get in line to march."

Oh, the animal boys marched back and forth, sometimes up and down and sometimes in the middle, learning to be soldiers. They were all very brave and ready.

"Well, I guess that will be all today," said Uncle Wiggily, after he had passed out peanut lollypops to the animal boys. "I'll be on guard in my new coat tonight, and tomorrow we will drill again."

So that night after supper, Uncle Wiggily again showed them how to drill in the trench, wearing his military overcoat, that Nurse Jane had gnawed for him out of a muskrat.

Oh, excuse me, that's Uncle Wiggily's red, white and blue striped rheumatism crutch; isn't it? Well, he did not need that crutch any more. He was a brave soldier. He wore the coat Nurse Jane had made for him out of cloth.

But, somehow or other, he grew very warm and hot in the trench, first turned down the collar of his coat. Then he unbuttoned it. He was so hot, he said, "I guess I'll have to take it off altogether. It's so hot. I'll hang it up on the handle of the rake I used to dig my trench."

So, hanging his coat up on the rake, the handle of which was stuck in the ground, and draping the arms over the two iron ends of the garden tool, Uncle Wiggily marched up and down in more comfort.

That night grew warmer and more warm. And, as might be expected, it was warm in the swamp where the mosquitoes were waiting to bite. "Come on to my capture that rabbit soldier!"

"Biting! Biting! We're with you!" sang the buzzing insects as they flew to the trench where Uncle Wiggily was on guard in front of his tent near the hollow stump bungalow.

"Halt!" whispered the mosquito captain.

"All the flying insects stopped flitting their wings."

"There he is! I see him!" said a young lieutenant mosquito next to the captain. "See, he is standing in the trench. How still he is. He is not moving. He is asleep. He is, said the captain, and before he awakes we will capture him. Advance on Captain Uncle Wiggily Longears!"

Down buzzed the mosquitoes, but it was only Uncle Wiggily's coat, hanging over the rake, and the arms stretched out like those of a scarecrow, which the bugs saw. About fourteen million of them grabbed hold of it, and then, with a great buzzing of their wings, up they flew with the empty coat, thinking they had Mr. Longears.

"Here, come back with that!" cried the bunny from the far end of the trench, as he heard the mosquitoes buzzing. "Let my nice coat, that Nurse Jane made for me, alone!"

"What! Have we only captured his coat?" cried the mosquito captain. "Oh, dear! Bad luck!"

Copyright, 1917, by McClure Newspaper Syndicate.

BIG SUIT RESTS

LOS ANGELES, June 20.—Hearing of evidence was concluded here after court sessions continuing through nineteen months in the so-called "billion dollar fraud suit" of the government against the Southern Pacific Company and others to recover 475,000 acres of oil bearing land in Kern, Fresno and Kings counties.

The government was granted until October 1, 1917, to present the case and the Southern Pacific was given until November 1 for the same purpose. Arguments were set for December 2, each side being allowed a week, after which the case will be submitted to Judge Benjamin F. Bledsoe of the United States District Court here, for decision. The city in which the arguments will be heard has not been designated.

The Curious Quest
Mr. Ernest Bliss

By E. Phillips Oppenheim

(Continued from Yesterday.)

Bliss pulled himself together and took the car back to the garage. He reached the restaurant in Drury Lane where Frances was waiting for him in less than twenty minutes.

He displayed the five shillings exultantly, and promptly ordered a bottle of wine.

"This is all," he declared. "I go out and earn the price of our dinner while you sit waiting for it."

"She shook her head reproachfully."

"You silly boy! That five shillings ought to be going toward your week's keep, and not be squandered for our dinner."

"Rubbish!" he exclaimed gaily as he took his place at the table. "We're both getting too serious, Frances. We must endeavor to cultivate a spirit of lighter-heartedness, a more complete bohemianism, so to speak. I have a conviction that everything is going to turn out all right for us and tomorrow morning."

"Well, what about tomorrow morning?"

"Tomorrow morning you are going to find an excellent situation, and I am going to call upon the young gentleman who gave me the five shillings—going to call upon him at the queerest place in the world."

"Do tell me where that is?" she asked.

"Number 27 Arleston court."

"And why is it the queerest place in the world?"

"I'll tell you that some other day," he promised.

CHAPTER XXV.

A Stranger in the House.

At a few minutes before 10 on the following morning Bliss entered the spacious entrance hall of Arleston court and rang the bell for the lift.

He had passed in unobserved by the hall porter, and, to his immense relief, the lift was a stranger. He ascended to the fourth floor, and with a certain amount of trepidation rang the bell of his own front door.

The summons was immediately answered by a strange man servant.

"Is Mr. Dorington in?" Bliss inquired.

The servant, who was a very inferior person indeed compared with the immaculate Clowes, motioned him to a seat and disappeared. In a few minutes he returned. Bliss was leaning back in a carved oak chair which he had bought at Christie's, appreciating one of his own points.

The man regarded him with an air of one inclined to resent this familiarity on the part of a stranger.

"Mr. Dorington will see you," he announced condescendingly. "Come this way."

Bliss followed his conductor meekly down the hall and into the room which he himself had used as a library. His friend of the night before was seated there in an easy chair, smoking. A box of very excellent cigars stood upon the table.

WORK DAY SHIFT PLANT TAKES FIRE

BUTTE, Mont., June 20.—For the first time in many years the miners in the Butte district began today to work the day shift only. The employing companies, because of a strike which has been called on the mines by the Metal Mine Workers' Union, decided to abolish the night shift as a measure of precaution for the employees and because so many have left the mines that the force willing to work can be accommodated in one shift.

Metal Mine Workers' Union announced that between 4900 and 5000 miners have joined the new union and that thousands in addition are remaining from work in the mines. The union has obtained the approval of its demands from the electricians, who also are on strike.

The electricians' demands for higher wages were indorsed last night by the Silverbow Trades and Labor Council, the central labor body. The Butte industries have not yet been

LEADERS URGE MEXICO TO JOIN ALLIES

BY ASSOCIATED PRESS
LEADED WIRE TO TRIBUNE

MEXICO CITY, June 20.—El Universal, which is probably the most prominent newspaper in Mexico, printed today statements from twenty-three prominent civilians of Mexico advocating severance by Mexico of relations with Germany and asserting that Mexico's place in the war is on the side of the entente allies.

The headlines of the article in which the statements are incorporated say it is to the interest of Mexico to sever relations with Germany and that the Latin-American ideals of Mexico must incline her to the side of the allies rather than toward ideals of Pan-Germanism, absorption and militarism as expressed by Germany.

The article says that the opinions printed are those of some men who think in Mexico and for Mexico and it is the consensus of opinion of these men that Mexico must sever relations with Germany in order to remain true to the ideals for which the country has struggled during the last six years.

The statements in general show close unanimity of opinion. Some of them go as far as to say that in order to uphold the ideals of justice which actuate Mexico, the country should immediately declare war on Germany. Others assert that German intrigues in Mexico offer ample reasons for severance of diplomatic relations, adding that Germany is endeavoring to provoke trouble between Mexico and the United States. It is asserted in some of the statements that Germany cannot deceive Mexico by offers of money and land and loans, nor by the prospect of recovering portions of Texas, New Mexico and Arizona, lost in 1848.

PUT DOWN SPY SYSTEM.
Mexico, say still other of the statements, cannot lend herself or her territory to headquarters of a German spy system, the object of which is to lay Mexico and other Latin-American States open to embroilment and especially involve Mexico with the United States and Guatemala.

Among those from whom statements are printed are Rafael Cabrera, governor of Puebla, and brother of Luis Cabrera, minister of mines; Marcelino de la Garza, congressman; Luis Castillo Ledon, director of the National Museum, and Arnulfo Dominguez Bello, director of the National Arts Museum.

Senior Bello said that Mexico would gain by entering the war, and that he was with the entente as a matter of patriotism. Rafael Lopez, the Mexican aviator, said:

"I would be glad to see Mexico recede from her neutrality which is the cause of the entente, which I believe will triumph. When the adjustment comes Mexico would then obtain advantages which would prove to be but illusions if she espoused the cause of the other side."

Carlos Gonzales Pena, novelist, said:

"The war not only affects the nations engaged, but is a battle of nations against an absorbing, brutal militarism. If nationality disappears our future is sinister. When the allies triumph our proximity to the United States will place us in an advantageous position commercially with regard to Spanish America."

SUBSIDIZED BY BERLIN.
Arturo Cisneros, journalist, wrote as follows:

"We cannot longer permit within Mexico the carrying on of German espionage. The odious campaign of that part of the Mexican press which is subsidized by Germany and which sends out news prepared in Berlin is calculated to divide public opinion as in Spain. Perfidious Germany has sought at all costs to embroil us with the United States. This is proved by the publication in the pro-German papers of the United States of stories of wireless despatches between Mexico and Berlin and of an alliance against the United States between Mexico and Salvador, and by declarations that high Mexican officials have been paid millions of dollars to secure support for Germany. To these intrigues we should respond by a declaration of war."

Luis Ledon said an alliance with Germany would be highly disastrous for Mexico, for, assuming that the Germans should repulse the attacks of the Americans in Europe, they would come to Mexico and conquer it as a base of operations against the United States and crush Mexico as they crushed Belgium.

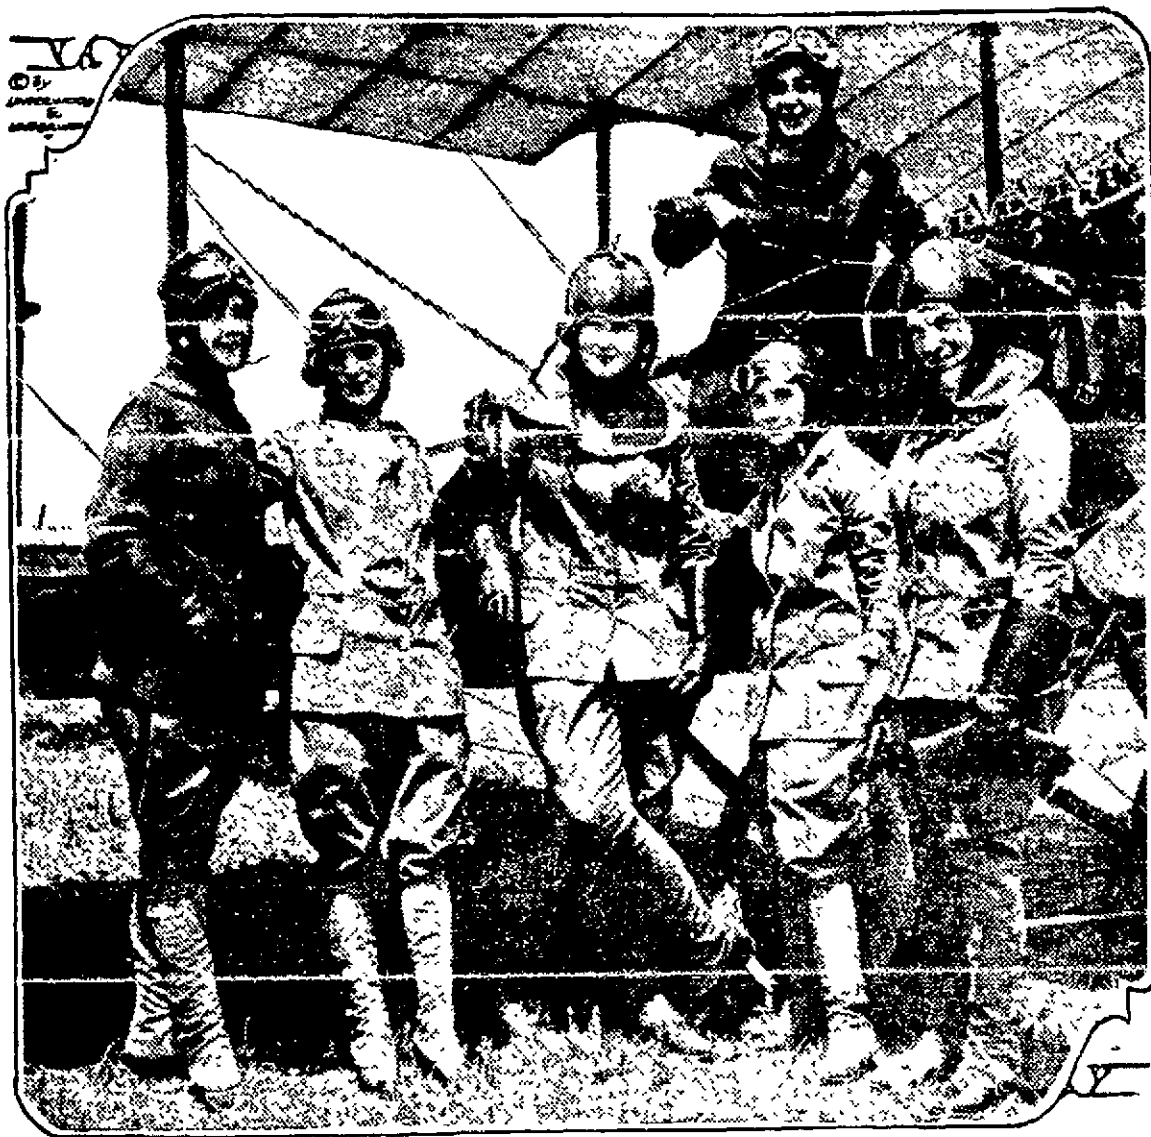

"We should ally ourselves frankly with the United States," said Senior Ledon, "on moral, as well as economic grounds, for they have all the money we require for the rehabilitation of our country."

BUYS INTEREST
NEW YORK, June 20.—Claus Spreckels, Jr., has acquired the stock holdings of Clarence H. Mackay and W. W. Cook in the Federal Sugar Refining Company. Mr. Mackay has issued a letter to shareholders of the company giving them the opportunity to join in the sale of their stock.

The purchase of the Mackay-Cook holdings is supposed to give Mr. Spreckels stock control of the Federal company.

Aeroplanes Can Win Great War U.S. Urged to Build! Build! Build!

By J. P. Yoder,

United Press Staff Correspondent.

WASHINGTON, June 20.—"Put out the enemy's eyes," "Blind him and he is lost." That is the message Lieutenant Amaury De La Grange, French flyer extraordinary, wants carried to the American nation.

He told the United Press today in an eloquent plea to the American people to get behind the proposed program of the aircraft production board of the Council of National Defense and make possible speedy appropriations by Congress of the sum necessary to build five thousand machines to the French battle field by March—and ten thousand machines by August, 1918.

Carry out the proposed program, De La Grange declared, and opening of the way to Berlin is made possible—even probable.

Carry out the program he said, and the thing so far impossible of accomplishment—actual breaking of the German lines—rendered well nigh certain.

URGES AIR SUPREMACY.
"This war," said De La Grange, "has been so often told, is one of artillery fighting at long ranges. Blinded artillery, obviously is helpless. Air supremacy means blinded artillery for the other side."

"Again this war has developed into a war of maneuvering. No maneuvering means no surprise. Victory is impossible without an element of surprise. Give two sides where a deadlock exists, where there is even a near equality of men and metal and aviation and surprise, yes, even victory, is well nigh impossible."

"But give one side a preponderance in aviation, even though that side is weaker in men and metal and it is a stronger blind man fighting a weaker man who can see."

"As it is now, both sides as regards aviation, according to De La Grange, are fairly equal with a slight balance favoring the allies. Both sides are feverishly turning out their maximum output—approximately 4,000 machines monthly, including thousands of training machines."

MEANS GREAT SAVING.
"Let America, with its vast resources and its unlimited manufacturing possibilities, turn herself quickly to giving us air supremacy," said De La Grange, "and victory is near—lives in countless numbers will be saved and billions in money will be unspent."

"It will take you time, yes, to start, but start quickly—at once. It is time! Every week lost now means months lost next spring. And you Americans know what is lost each month in lives and money. This is the most important job aside from that of food."

"I doubt if you could produce heavy artillery within a year. Start now on the aircraft production board's aeroplane program and you give us the greatest help. You may make a 1918 victory possible—even probable."

"The most powerful weapon with the largest future is the aeroplane."

"The aeroplane has revolutionized warfare more than gunpowder did. Germany has probably about 4,000 machines on the western front. The allies are slightly superior. If America turns her available resources into building aeroplanes, Germany, to maintain her equality in the air would have to diminish her submarine output or something else of

military use. And even then she could not equal the enormous American output which is what the allies need."

"The fact that America is building aeroplanes would put Germany in a defensive position. We do not know how she would meet this problem, but we do know what it would mean to us if we had to produce 20,000 more aeroplanes than we are now planning. It would lessen our man-power."

"By next March or April you should be able to send sufficient machines to the front to make a great difference. It would take you four months more to produce an overwhelming number—that is four machines to one German machine which is what the allies need."

"Produce your first five thousand machines and you then can produce fifty thousand with a little trouble and in far shorter time than it took to build the first five thousand."

"The matter of aviators is comparatively simple here, where flying can be done the whole year round, you could have the men ready and well trained before the time the machines were ready in any quantity."

FOR NORTH ISLAND
WASHINGTON, June 20.—Acquisition of North Island, in San Diego harbor, as an aviation training station, was recommended today by a sub-committee of the House military committee. The recommendation will be submitted to the full committee at a later date.

WASHINGTON, June 20.—The first war aeroplane bill, carrying an appropriation of \$600,000,000, is nearing completion and will be introduced in Congress probably Friday. It will carry an urgent recommendation from the Secretary of War for prompt and favorable action.

Meantime Congress wants to know exactly how \$600,000,000 can be put into aircraft when aeroplane concerns heretofore have not been able to deliver 100 machines a year to the War Department.

The plan of the new bill calls for production of thirty thousand new machines for the first year over two thousand a month, within a few months.

Aware of these mutterings by Congress, the administration will render a detailed statement as to contemplated expenditures. This will show millions for aeroplane expansion, hundreds of thousands for wings and the like, tens of thousands for equipment and training aviators, and yet more thousands for supplies.

This statement is being prepared under the joint direction of the Signal Corps, war and navy departments, and the aircraft production committee of the council of National Defense. It will explain that automobile plants will tender 40 per cent of their producing equipment to manufacturing air-craft engines at a reasonable profit.

Other factories will be utilized by the government to produce planes, etc. The statement will suggest that Congress choose between government operation of the few real aeroplane factories of the country or granting contracts for machines with these plants, allowing unusually high profits so that the plants may properly equip themselves to expedite the enormous work demanded of them. The question of reasonable profit probably will be the biggest bone of contention in the bill. The statement will further explain expenses for maintaining training camps, schools for mechanical education, and the like.

Six Women in the New Corps; All Are Skilled in Work

LOS ANGELES, June 20.—During death in a patriotic desire to serve the United States, six Los Angeles women have formed an aviation corps, offering their services and their airplanes to the government for coast patrol work.

The feminine patriots are practicing and studying the art of flying daily at the training station nearby. After a short period of instruction several of them have made successful flights to high altitudes.

Miss Alice La Chapelle, a finished aviatrix, is in charge of this girls' corps of aerial scouts. Colonel Newman, who established the first aviation corps in China, and Joseph Harting, a Los Angeles aviator, are instructors.

Miss La Chapelle and her associates can be of valuable service to Uncle Sam and that when American soldiers have been actively fighting in Europe, the aviators will be with them, leaving the coast in serious need of patrol aviators. Their aim in forming the women's aviation corps is to serve the government in every way possible and to fill places vacated by men called to the front.

AVIATION CORPS PLANS OUTLINED
WASHINGTON, June 20.—The first war aeroplane bill, carrying an appropriation of \$600,000,000, is nearing completion and will be introduced in Congress probably Friday. It will carry an urgent recommendation from the Secretary of War for prompt and favorable action.

Meantime Congress wants to know exactly how \$600,000,000 can be put into aircraft when aeroplane concerns heretofore have not been able to deliver 100 machines a year to the War Department.

The plan of the new bill calls for production of thirty thousand new machines for the first year over two thousand a month, within a few months.

Aware of these mutterings by Congress, the administration will render a detailed statement as to contemplated expenditures. This will show millions for aeroplane expansion, hundreds of thousands for wings and the like, tens of thousands for equipment and training aviators, and yet more thousands for supplies.

This statement is being prepared under the joint direction of the Signal Corps, war and navy departments, and the aircraft production committee of the council of National Defense. It will explain that automobile plants will tender 40 per cent of their producing equipment to manufacturing air-craft engines at a reasonable profit.

Other factories will be utilized by the government to produce planes, etc. The statement will suggest that Congress choose between government operation of the few real aeroplane factories of the country or granting contracts for machines with these plants, allowing unusually high profits so that the plants may properly equip themselves to expedite the enormous work demanded of them. The question of reasonable profit probably will be the biggest bone of contention in the bill. The statement will further explain expenses for maintaining training camps, schools for mechanical education, and the like.

Aviators are now being turned out of these schools rapid, for practical training at the rate of about two hundred a week but this is not sufficient, and a call for volunteers is under consideration. There will be twenty training camps.

SUSPECTS HELD
NEW ORLEANS, La., June 20.—Two Germans, believed to have been preparing to blow up New Orleans' largest buildings, were arrested here early today by federal officers. The Germans are said to have had in their possession trunks packed with bombs.

Your Boy May Need the Aid.

BOAT IS FIRED ON
PORTLAND, Ore., June 20.—Soldiers guarding a bridge over one of the sloughs of the Columbia river report a battle in which they fired 15 shots at three men in a boat about 11:15 last night. They say the boatmen fired back twice with a rifle. One of the boatmen is believed to have been wounded. None of the soldiers was hurt. The boatmen escaped.

Respond cheerfully for the Red Cross.

AEROPLANES ARE DECLARED NEED

WASHINGTON, June 20.—Aeroplanes and artillery with ships and food, Major General Goethals today told the Senate military subcommittee, will be the principal factors in winning the war. Supporting bills to create a new department of aeronautics, General Goethals approved coordination of all government aeronautics under one authority.

In speaking of his belief in concentrating authority, General Goethals said it might become necessary to create a department of munitions. At the same time a House committee was considering legislation to greatly increase the aircraft of the army and the navy, possibly to a fleet of 100,000 machines. Recommendation has been made by a subcommittee, headed by Representative Caldwell of New York, that North Island in San Diego harbor be taken over as a site for an aerial training station.

TO TEACH AIRMEN
AN AMERICAN PORT, June 20.—A dozen of the most intrepid of French aviators, each one of whom has at least one decoration for bravery, and is known as a "killer," arrived here today on an Atlantic liner to impart their skill to American birdmen.

After reporting to the French high commission at Washington at an early date, the French aviators will be distributed among aviation stations and training schools and devote the next six months to teaching young America the science of aerial warfare.

COULD MAKE TRIP?
COPENHAGEN (via London), June 20.—A German technical weekly calculates that regular Zeppelin trips to America are a possibility of the not distant future. The paper says that only a moderate increase in size over the present type would give the necessary lifting capacity for an airship making a trip in four days.

The article apparently was written with peace and not war time visions in mind.

Get that Piano Just the Same. There Never Was a Better Time to Buy It!

There is never a time when music—of the right kind—is out of place. Joy or sorrow, anger or anxiety, hours of peace or hours of stress—there is music for all of them and in music—RELIEF.

There was never a better time than now to get a piano. A reason on the material side is that piano prices are almost certain to be largely advanced very soon. But a better reason is the comfort and enjoyment it will give you under trials and the delight it will afford when your whole being tingles with joy. Whether for exaltation, consolation, relaxation or mere amusement, a piano in the home now is more important than ever.

There exists no longer the objection, "I cannot play the piano." Nobody is now deprived of music for lack of training. Anybody can play

The Euphonia Player-Piano

and anybody can play it well. Furthermore, almost anybody can buy one. It is low-priced—the lowest-priced good player-piano that we know—and we give very easy terms.

Why not have one sent to your home at once? You will never feel the cost, and the joy it will give you is beyond belief.

MASS-MEETING TO AID RED CROSS TONIGHT

Speakers to Tell How America Can Lessen Suffering

The big mass meeting which is to mark the formal opening of the local campaign to raise Oakland's portion to the \$100,000,000 National Red Cross fund, will be held at the Hotel Oakland this evening. At that time the final organization of the various committees will be completed, a complete registry of the volunteer workers made and the outlines of the system under which the city is to be canvassed formulated.

The speaker on the evening will be Otto Irving Wise, San Francisco insurance man, whose work on the Coast along humane lines has caused considerable attention. Harrison S. Robinson will preside as chairman of the evening. In addition to the general public who are invited numbers of civic, improvement, women's and industrial organizations will be present, with scores of Red Cross workers who are to play an important part in the campaign which starts officially tomorrow.

Chairman Joseph H. King has been hard at work completing the officerships in the campaign organization. A meeting was held last night in the Red Cross fund headquarters in the Syndicate building at which lists of prominent men and women in the east bay district who have volunteered to act as workers during the drive were received and approved. As a result of plans outlined at that meeting a request has been sent out that all volunteers desirous of aiding in the humane work for the United States and foreign countries engaged in the war, to report at the Oakland Chamber of Commerce, Thirteenth and Alice streets, Thursday morning between 9 and 11 o'clock. They will be immediately assigned to duty for the drive which starts tomorrow and continues until Monday night.

BACK YARD CANVASS.
Among the plans laid at last night's meeting was one for a "Sunday Back Yard Canvass" to take place next Sunday morning. The affair is planned to stimulate activity among various clubs and local organizations. A canvass on a door-to-door basis to be made by members in their respective districts. Work in this direction has already been started by W. D. Ingraham, president of the Glenwood Improvement club.

War pictures are being shown in aid of the Red Cross movement on the Turner & Dahken circuit of the-

SAVE OUR WOUNDED

If you pass this by and neglect to sign your name, your neglect may mean an American soldier's life. Men have died for the need of a SINGLE BANDAGE.

Do something—sign this and mail it to headquarters at once, Tenth floor Syndicate building, Oakland. Phone Oakland 9403.

For the purpose of providing for the relief work of the American Red Cross to be administered by the War Council appointed by the President of the United States, and in consideration of the subscriptions of others, I promise to pay to the American Red Cross War Fund, William G. McAdoo, Treasurer

Dollars, payable as follows:

One-fourth July 1, 1917; one-fourth August 1, 1917; one-fourth September 1, 1917; the balance October 1, 1917, or as follows:

Name _____

Address _____

ters this week. The pictures have been taken under the authority and with the consent of the British government. They give a vivid portrayal of the work of the Red Cross at the front and the situation as it exists today. The company has notified the local Red Cross committee of this fact and is urging all persons to see the films. It is believed by the local committee that this will stimulate contributions materially.

Among the plans for aiding the work of the national drive is a program of speeches by persons familiar with the work and objects of the Red Cross movement, which will be made at local theaters until June 25, the closing day of the contribution collecting campaign. Among those speakers already assigned to talk each day, afternoon and evening are the following: J. J. Rosborough, Kinema

theater; Albert Agnew, Franklin theater. On Friday, at 2 p. m., at the Hotel Oakland, Albert Ehrhott, executive representative of the national committee in this state, will address the members of the Women's Club concerning the work that is to be done in collecting Oakland's share of the \$100,000,000.

Many affairs are being planned in various parts of Alameda county in aid of the national movement. The Catholic Ladies Aid Society will hold a meeting at 3 o'clock next Monday afternoon at their hall, Grove and West streets, at which Ollie F. Sredigar, Alameda county probation officer, will talk on Red Cross work. Tomorrow night the Order of Marcebees will meet at Forter hall, Nineteenth and Grove streets, for the purpose of organizing a Red Cross sewing circle. All agencies of the Mazda Lamp

Company, which has one of its largest branches in this city, have been instructed to co-operate with the Red Cross movement and drive in every possible way. Every male employee has been ordered to take out a membership and every female employee to join a sewing circle. Miss Helen Kimball will speak at a noon luncheon at the local plant, Sixteenth and Campbell streets, tomorrow.

The negro population of Alameda county has not been backward about volunteering for work with the Red Cross committees in charge of the big drive. At a meeting in the African Methodist church, on Campbell street, last night, more than \$37 was subscribed in memberships and offers from individual members made to the general committee to aid in the work of canvassing and securing additional funds and supplies.

WILL OUTLINE WORK.

The Oakland Rotarians have come forward with a request of all members to aid the Red Cross movement. Ehrhott, state organizer of the Red Cross fund and executive representative of the national committee, will be the principal speaker before the organization at its regular luncheon at the Hotel Oakland tomorrow noon. He will outline the work of attempting to secure \$2,000,000 from California and \$200,000 from Oakland, and urge all the members to take out memberships in the American Red Cross to aid in furthering the work which has been undertaken.

One of our big problems today is Russia," said H. C. Capwell, chairman in charge of local Red Cross activities, today. "On the Russian line there are only 6000 ambulances to cover 1000 miles of fighting men. France possesses 54,000 ambulances, fully equipped, for only 400 miles of fighting men. Thousands are huddled in stables and barns, suffering from disease and exposure. Russia needs our trained women to instruct theirs in the art of nursing. She also needs enormous quantities of supplies for the wounded. Probably nothing that we can do will so quickly end the war as to aid Russia in this regard."

TEAMS NAMED.

Some of the teams which are to handle the collection of the Red Cross funds have already been formed and will start work at the order of the division captain. Subscriptions are beginning to pour in

from various sources and various women have been selected to head the subscription drive in different parts of the city. Mrs. F. A. Bardwell, 129 Grand avenue, will supervise the taking of subscriptions in City Hall plaza and Miss Elva Ghrardell will have charge of the Red Cross bureau at Lehnhardt.

The following teams have completed formation and are ready for the campaign drive:

TEAM NO. 6

Mrs. F. M. Smith, captain; Mrs. Chas. Frost, lieutenant; Miss Grace Fisher, Mrs. F. B. Inche, Mrs. Fred Taylor, Mrs. C. W. Cross, Miss Katherine Snyder, Mrs. W. D. Cole, Mrs. D. F. Belden, Mrs. Giles Gray, Mrs. David Gage, Mrs. J. F. Peck, Miss Marian Ellis, Miss Grace Speer, Mrs. George Ellis, Miss Minnie Townsend, Mrs. F. Webster, Mrs. G. B. M. Gray, Mrs. W. V. Crane, Miss L. Huntie, Kenneth Kraft.

TEAM NO. 8

Mrs. A. S. Larkie, captain; Mrs. Wallace Alexander, Dr. Aldrich, Mrs. Parsons, Mrs. Jensen, Mrs. Heasley, Mrs. Gray, Mrs. Samuels, Mrs. Dallas.

ANOTHER CIPHER MEANS BIG COIN; HE WON'T GET IT

WASHINGTON, June 20.—Instead of appropriating \$10,000 for next year's salary of Governor Harding of the Panama canal zone, Congress, by mistake, appropriated \$100,000. Someone apparently added another cipher to the original figures.

The mistake was discovered today in printed copies of the sundry civil bill. Investigation showed that the same error existed in the engrossed copy of the bill. It had escaped the attention of all members of both houses, apparently, and the bill having been approved by the President, it is now the law of the land. The Governor Harding should receive next year ten times his present salary.

The mistake, of course, will be rectified, but it will take an act of Congress to do it.

If You Can't Enlist, Contribute.

FOR MUSIC RALLY

Delegates to the convention of the California Music Teachers' Association in Sacramento will be selected tomorrow evening at the June meeting of the Alameda County Music Teachers' Association in Corinthian hall in the Pacific building. In addition to business matters, there will be a short program by Miss Lucy Van De Mark, Lawrence Stranges and Mrs. Josephine. An address on "The Ministry of Music" will be given by the Rev. John Stephens, pastor of the First Methodist church.

FIRE BURNS ROOF

HAYWARD, June 20.—Damage, estimated at several hundred dollars, occurred in the McKee home on A street here yesterday afternoon, when a fire burned part of the upper walls and roof. The fire department was able to place the blaze under control. The fire's origin is still undetermined, spontaneous combustion and a defective flue forming the two theories of officials. The home, a one-story one, is occupied by Miss Genevieve McKee, member of the Alameda county board of education, and her sisters. It is situated on A street, between Main and First.

Your Boy May Need the Aid.

"SUICIDE CLUBS"

PORT SHERIDAN, Ill., June 20.—A call for five volunteers from among the student officers here to join the "suicide club" was received today. The "suicide club" is the sobriquet for the machine gun companies. These organizations are said to be responsible for half the fatalities in Europe. Uncle Sam's order calls for five men from each officers' training camp.

TOWN IS DESTROYED.

LINDEN, Ind., June 20.—The little town of Kirkpatrick, just east of here, was practically wiped out by a fire caused when a train containing seven cars loaded with oil was wrecked in the center of the village and exploded. One man was burned slightly and there were a number of narrow escapes. Kirkpatrick has a population of about four hundred.

This is Red Cross Week.

TO THOSE WHO DESIRE GOOD OPTICAL SERVICE

If you are a customer of any of our establishments we are confident that you will realize what good optical service means—our best efforts have been put forth to satisfy our customers in every respect. To those who wear glasses and desire exceptional service we can only say—investigate at any of our three stores. A permanent record is always made of your glasses—lenses can be duplicated without the prescription. If the broken pieces are saved, and your glasses will always be made exactly right. If you are too busy to call—phone a messenger will call for and deliver your glasses if desired. If you do not have a record of your glasses—call now—it will take but a few minutes' time to have this done.

Millions Are Pledged Cities Swell Big Fund

WASHINGTON, June 20.—Red Cross campaign committees in all sections of the country today entered upon the third day of the week's intensive canvass to raise \$100,000,000 for war relief, with \$35,000,000 in pledges already reported.

Reports by cities before work started today include the following: New York, \$17,000,000; Chicago, \$2,000,000; Cleveland, \$1,505,000; Buffalo, \$746,000; Philadelphia, \$642,000; Cincinnati, \$561,000; Wilmington, \$544,900; Rochester, \$502,000; Detroit, \$469,000; Minneapolis, \$450,000; St. Louis, \$426,000; St. Paul, \$341,000; Kansas City, \$337,000; Richmond, \$312,000; Milwaukee, \$275,000; Denver, \$119,000; Portland, Ore., \$99,000; Des Moines, \$33,000.

WILL RECONSIDER

WASHINGTON, June 20.—Taxation of publishers was reopened today by the Senate finance committee in revising the war revenue bill. The committee adopted Senator Penrose's motion to reconsider its decision to levy a 5 per cent tax upon publishers' profits, but reached no decision regarding substitutes.

The committee decided to reconsider the whole question. Various substitutes were suggested by Senators Smoot, Simmons and LaFollette, including an increasing in second-class postage rates to 14 1/2 cents a pound and an additional graduated tax upon publishers' net profits.

Exemption of publishers' profits of \$4000 and less also was discussed and seemed generally favored.

CIVIC CENTER IN ROW OVER BARRED TALK

Oakland Center, California Civic League, has refused Mrs. Sheehy-Skeffington, the privilege of speaking under its auspices. The action in prohibiting the widow of the Irish editor, the owner forum almost resulted in a disruption of the board of directors and almost caused the resignation of Miss C. Anita Whitney, who was the first president of the California Civic League and now serves in the local organization.

According to Miss Whitney, who has decided to remain with the civic club, the refusal was based upon the contention that "Mrs. Skeffington speaks against England and the United States and it is unpatriotic to allow her to address an assemblage of American women." Miss Whitney herself stands for the principle of listening to any one who cares to speak and to judge of the truth, hence the little excitement in the ranks of the large organization of 1200 women, of which Mrs. L. G. Leonard is the newly elected president.

In commenting upon the action which it was hoped should remain within the bounds of the board, Mrs. O. E. Chaney, the secretary, was conservative. "We are but following the lead of the San Francisco women," she said. "They decided what was best for them and we put our stamp of approval upon their opinion. We believe the same. Moreover, it is unpatriotic to allow her our platform."

"I thought I would resign from the Oakland Center board," said Miss Whitney, "but I have a right to my own opinion and I will remain to express it. We are not always progressive because the clubwoman so clings to her old ideas. She does not embrace new ones."

Karagheusian Rug in \$77.50 Chinese Renaissance

One of the most wonderful rugs ever produced on a loom. There is not a loop repeated in the entire center. The center is woven on gold ground with foliage and birds in softly harmonizing tones. Border is worked with Chinese blue. Size 9 by 12 feet. Also made in smaller sizes, 36x63 inches, with gray and with mulberry grounds. Priced\$13.25

—The shapes are the very latest in a color and style range it would be hard to equal.

—A splendid opportunity to buy at a big saving your summer parasol. **Parasol Section—Main Floor**

TO HOLD SERVICE FOR DENT ROBERT

SAN FRANCISCO, June 20.—Following funeral services today in Coronado, the body of Dent H. Robert, publisher of the San Francisco Examiner, was placed aboard a north-bound train, and, accompanied by the widow, Mrs. Elizabeth W. Robert, and Justin McGrath, close friend, sent to this city for cremation.

Brief services will be held here at 2 o'clock tomorrow afternoon. John J. Barrett will eulogize the dead editor; McKenzie Gordon will sing, "Oh, Dry Those Tears," and Rudolph Seeger, the violinist, will render Handel's "Largo." Rev. Charles L. Barnes of San Diego gave the funeral service this morning in the southern city.

KILLED IN WRECK

MERCED, Cal., June 20.—P. S. Kellor, 32, wife of a man who was killed in an automobile accident at Power Cave, Marin county, last night.

Heat in South Is Severe Crops of State Suffer

Needles is still the warmest spot in the country although the western slope is coming in for a spell of continuous hot weather which shows no sign of abatement. The maximum at Needles was 118 degrees and Yuma, Arizona and Paso Robles, California, follow with 114 and 112 respectively. There are many other cities above the 100 mark and considerable suffering has been caused. Heat prostrations have been reported in the interior valleys and have been aggravated by the additional heat coming from forest fires which have been raging in the mountains both in northern and southern California.

In the walnut-growing sections of the south the orange belt, the deciduous fruit districts and the vegetable-growing section fruit growers and ranchers are trying to estimate the losses caused by the hot wave. The consensus of opinion yesterday was that while losses will be considerable, there will be compensations that will almost equal losses.

The walnut crop will still be above normal, though many young walnuts that were exposed to the sun's rays are withered. But the green nuts clustered so thickly that plenty are left for at least a normal yield.

Many of the very small oranges have been burned and will drop off, thus decreasing the yield somewhat. But growers say the total orange yield will scarcely be decreased, for the remaining fruit will be larger. The citrus men are also happy over the fact that the hot weather brought vast benefit in the destruction of San Jose scale.

Beans and sugar beets suffered considerable damage in spots, where the soil was dry or for various reasons the young plants were not hardy. The big Ventura county bean crop is undamaged, and altogether it is doubtful if the effect of the hot wave will be perceptible in the crop totals in the autumn.

Berry crops were hurt in the interior valleys and for few weeks berries will be scarce in the markets. Deciduous fruits were damaged some in interior valleys where the greatest heat was experienced. Alfalfa has benefited by the heat and has made a tremendous growth during the hot spell.

G. A. R. WILL AID

SEATTLE, Wash., June 20.—Not recitation of the glories of the past, but rather a usefulness in the present world war is the mission of the Grand Army of the Republic and its affiliated organization, according to the message brought the veterans in convention here by Department Commander J. E. Gandy of the encampment of Washington and Alaska.

Commander Gandy delivered his opening address at the thirty-fifth annual convention of the department held here by Department Commander J. E. Gandy of the encampment of Washington and Alaska.

Various ways in which veterans can be of assistance in the world war, not on the battlefield but in the homes, at public gatherings and in churches and schools were outlined.

LONG QUEST LOST

BOSTON, June 20.—The plea of Mrs. John Ellis to regain the custody of her 10-year-old daughter, Olga, for whom a world-wide search was made by means of motion pictures and otherwise, has been refused by the Supreme Court of Japan, where the child was taken by her father, the Rev. John Ellis, according to advices received here from Tokyo. The case has been pending in Japanese courts for three years and had previously been involved in extensive litigation in this state.

CONDON IS SILENT

CHATTANOOGA, Tenn., June 20.—Dr. William J. Condon, under arrest at Fort Oglethorpe for the murder of John V. Piper, whose body was found last Thursday near Spotswood, N. J., refused today to discuss the case, New York authorities are expected here to return him to the scene of his alleged crime.

TO WED NAVAL MAN

VALLEJO, June 20.—On Wednesday, June 27, Miss Catherine H. Colton, a well known young woman of this city, will become the bride of Chief Electrician Raymond A. Keirle. The bride-to-be is the daughter of Mr. and Mrs. J. H. Colton and has been employed as a stenographer at Mare Island navy yard for some time past.

SAYS CHINA WILL JOIN WITH ALLIES

SAN FRANCISCO, June 20.—That Japan is secretly attempting to keep China from joining the allies and that German intrigue has formed the present revolutionary outbreaks in the Celestial republic are the aspects of the political situation in the Far East as seen by P. H. Hidyok, manager of the Hongkong-Shanghai Banking Corporation at Hongkong, who is here with his wife and two daughters on a visit.

"Japan does not wish to have a stable government in China," he said today, "because her influence would be lost. She is therefore secretly working against any tendency which might show to enter the war on the side of the Allies. "Because China has not declared war, that country has not been able to sequester the Germans and these people have done much to foment the internal trouble in Germany."

"General Chiang is in favor of war, but President Li is not. I believe that China will eventually declare war against Germany, however, in spite of the influence of Japan and the intrigues of the Germans. My belief is based on the fact that only in that way can she secure her integrity. If she remains neutral, she will have many things to answer for after the war."

"Personally, I do not believe that a stable republic can be established in China for many years to come. Only one tie—ancestor worship—holds together the vast population composed of differing peoples with different languages. The emperor, as the son of heaven, united them in a common bond, but they have not the same feeling for an elected ruler."

TELLS OF DANGER

ATLANTA, Ga., June 20.—America must awaken and organize for war on an enormous scale, or face a long period of ghastly fighting and world-wide suffering. This was the message brought before the International Rotary convention here today by Pomeroy Burton, manager and a director of the London Daily Mail and other English papers.

"Why does the average American citizen fail to grasp the fatal fact that if Germany should destroy the British fleet or overthrow the massed forces of the allies on the western front, the results would be quick national disaster for this, the greatest of all world's republics?" he asked.

SUSPECTS JAILED

ATLANTIC CITY, N. Y., June 20.—Robert Clark and George W. Post, claiming to be New York brokers, were arrested here charged with having swindled Bernard H. Keroff, who is now in New York out of \$30,000 at a "fake" brokerage office in this city. They were held under \$40,000 bail each to await the arrival of Keroff to identify them.

The police express the belief that the prisoners are members of a nation-wide swindling gang and seek to connect them with the swindle of \$500 from E. Brown, a British purchasing agent, last summer.

WILL AID ACTORS

ZANESVILLE, O., June 20.—The Actors Fund of America, with headquarters in New York, is to receive \$100,000 from the Metropolitan Art Museum \$100,000 whose will was filed here. It is a million-dollar retired manufacturer who made his fortune in the manufacture of soap. Each of the thirty-one churches of this city are to receive \$100,000 and the two local hospitals \$20,000 each.

News from

Labor

Headquarters

The Iron Workers' Local Union No. 111 held election of officers Monday evening at their headquarters, 510 Eleventh street. The following were elected: President, Bob Seaton; vice president, Charles Reardon; recording secretary, Charles Eichholz; financial secretary, Ed Morgan; treasurer, D. J. Lloyd; secretary, William Look, sergeant-at-arms, Charlie Zimmerman; business agent, Tony Quintal; delegate, George Price, R. P. Smith, Frank Wilfert; delegates, Building Trades Council, John Flaherty, Tony Quintal, Bob Seaton; delegates, District Council of Iron Workers, Dave Bellner, John Flaherty, William Look, Edward Morgan, Tony Quintal, Charles Reardon; delegate, Central Labor Council, William Look, E. Miller and Charles Reardon.

Following elections in several localities, new delegates have been sent by the Central Labor Council as follows: From Oakland Typographical Union No. 26—E. S. Clark, C. F. Guenther and E. R. Wilson.

From Ice Wagon Drivers' Union Local 610—W. T. McCall and J. W. Hartley.

From Best Butchers and Sausage Butchers' Union No. 626—Amalgamated Meat Cutters and Butcher Workmen of North America—H. J. Collins and Frank Richards.

Request has been made to the Central Labor Council for the endorsement of a new Oakland branch of the Ship Riggers. The request, which came through Frank Morrison, secretary of the American Federation of Labor, follows tentative organization work on the Oakland waterfront. Many of the men are now in the San Francisco union, but prefer a union of their own on this side.

Plans for the organization of a classification committee to assist in organizing new unions covering various craft are being made by the Central Labor Council. The committee will deal with any questions that arise through disputes as to what jurisdiction certain workers shall come under. There have been disputes in the past in several crafts over matters such as the argument between the building trades and shipyard men as to which jurisdiction ship carpenters come under.

Enforcement of the new wage scale of the Iron Sheet and Tin Workers No. 1 probably will be made Monday by the Central Labor Council. The matter was filed before the executive committee after the employers and officers of the union had gone over the situation.

The wage scale of the Carmen's union and that of the Cooks and Waiters will also come before the council, having been favorably passed by the executive committee. There are virtually no changes in these two.

ONE DEAD; MANY HURT IN CRASH

SAN BERNARDINO, June 20.—One man was instantly killed, two are dying, and eight are seriously injured, two perhaps fatally, as the result of a collision near here today between a motorcycle and three Southern Pacific handcars.

Pablo Cruz, 30, was decapitated when the motorcycle ridden by Guy Dart, a high school boy, crashed into the lead handcar at Loma Linda crossing. Dart was thrown clear of the collision and only slightly injured.

Two other handcars running behind the one struck by the motorcycle were unable to stop and plunged into the wreckage. Not a member of the section crew on either of the handcars escaped injury. Two had their skulls crushed, others sustained broken arms, internal injuries and lacerations.

Hurry calls for ambulances met quick response and the injured were rushed to Loma Linda hospital.

The motorcycle knocked the first handcar off the rails and it turned over.

VALLEJO BUYS AMBULANCE FOR RED CROSS UNIT

VALLEJO, June 20.—At a special meeting held by the Vallejo Red Cross chapter Tuesday the secretary was authorized to send a check for \$1000 to Dr. Alvan Powell of the University of California so that he may purchase an ambulance for use in France as soon as he arrives in the east. The money for the motor car was raised in this city and Vallejo chapter will have the reputation of being the first Red Cross organization west of the Rockies to purchase an ambulance for the United States government.

SERVICES PLANNED

The annual meetings of the Rockhurst prayer conferences will be held at the First Presbyterian church, Twenty-sixth and Broadway, between 10 and 11 o'clock, Dr. F. W. Farr of Los Angeles and the Reverend James Frazer are to be the principal speakers. Many members and pastors of the local committee will take part. The meetings are to be held at 10 o'clock on Friday evening. There will be a special meeting for the soldiers and sailors, and on Sunday afternoon at 3 o'clock a large rally will be held at the Y. M. C. A. building, Twenty-first and Telegraph.

RED CROSS PROFIT

ST. PAUL, June 20.—The Westinghouse Electrical Company has announced a special Red Cross dividend of half of one percent on common and preferred stock. This is expected to amount to about \$10,000,000.

SCOTT, BROTHER, AGAIN INDICTED

SAN FRANCISCO, June 20.—New embezzlement indictments have been returned against J. J. Scott, deputy internal revenue collector for this district, and his brother A. C. Scott, chief deputy; 15 additional counts, contained in two indictments were filed by the Federal grand jury yesterday. They charge embezzlement of \$3,576.93 in funds. One charge of twenty counts involving \$569.81, is preferred against A. C. Scott.

The total number of counts against J. J. Scott is fifty-three, contained in four indictments. His alleged pecuniations amount to \$7000, while \$7776 in wine tax stamps, allegedly lost, were returned anonymously to the United States attorney.

RED CROSS PROFIT

ST. PAUL, June 20.—The Westinghouse Electrical Company has announced a special Red Cross dividend of half of one percent on common and preferred stock. This is expected to amount to about \$10,000,000.

A Word of Precaution.

JUST wherein lies the reason for the use of vegetable preparations for infants and children?

Why are any but vegetable preparations unsafe for infants and children?

Why are Syrups, Cordials and Drops condemned by all Physicians and most laymen?

Why has the Government placed a ban on all preparations containing, among other poisonous drugs, Opium in its variously prepared forms and pleasing tastes, and under its innumerable names?

These are questions that every Mother will do well to inquire about.

Any Physician will recommend the keeping of Fletcher's Castoria in the house for the common ailments of infants and children.

Children Cry For

Fletcher's

CASTORIA

Letters from Prominent Druggists addressed to Chas. H. Fletcher.

S. J. Briggs & Co., of Providence, R. I., say: "We have sold Fletcher's Castoria in our three stores for the past twenty years and consider it one of the best preparations on the market."

Mansur Drug Co., of St. Paul, Minn., says: "We are not in the habit of recommending proprietary medicines, but we never hesitate to say a good word for Castoria. It is a medical success."

Hegeman & Co., of New York City, N. Y., say: "We can say for your Castoria that it is one of the best selling preparations in our stores. That is conclusive evidence that it is satisfactory to the users."

W. H. Chapman, of Montreal, Que., says: "I have sold Fletcher's Castoria for many years and have yet to hear of one word other than praise of its virtues. I look upon your preparation as one of the few so called patent medicines having merit and unhesitatingly recommend it as a safe household remedy."

Dr. CARD

Diseases of Women

Should you desire medical or surgical treatment you are invited to see a doctor whose skill and efficiency has never been questioned, whose patients are always satisfied, and who never fails to give relief at the first treatment. Has your health been ruined by some Quack? Why not consult a regular physician of 14 years' experience, a graduate of two State Universities, and licensed by the State Medical Board. Have you been robbed by the mercenary and disappointed by the incompetent? For a smaller fee you may visit a doctor whose consultations are free—whose fees are always just and whose competency is attested by more than ten thousand patients.

WESTBANK BLDG., MARKET AND ELLIS STS., SAN FRANCISCO

HOURS: 10 TO 5: NO SUNDAYS.

BRANCH OFFICE, CONSULTATION ONLY, PANTAGES BLDG., OAKLAND
(The Doctor has recently added another room and an extra nurse.)

 Moon's first quarter June 25, at 7:28 a.

June 20 to June 25.

Day of Mo.	Time of High	Height of High	Time of Low	Height of Low
	H.	H.	L.	L.
20	0:16	0.93	1:25	0.43
21	0:16	0.93	1:25	0.43
22	0:16	0.93	1:25	0.43
23	0:16	0.93	1:25	0.43
24	0:16	0.93	1:25	0.43
25	0:16	0.93	1:25	0.43

Note.—In the above tabulation of the tide the daily tides are given in the order of their occurrence, commencing with the early morning tide on the left, and ending with the late afternoon tide as they occur. On some days but the tides occur, the fourth occurring the following day.

The columns of heights give the elevation of each tide above or below the level of Conception Bay, and are to be added to or subtracted to the chart depths, unless preceded by a minus sign, or dash (—), when the prediction is for a lower tide.
